

SAGA Wargames Rules

by Alex Buchel
Studio Tomahawk/ Gripping Beast
www.grippingbeast.com

Reviewed by Dr Ryan Lavelle, Senior Lecturer in Medieval History, Winchester University.

Gripping Beast's bid for world domination continues apace with the release of an innovative new system of rules, specifically designed for skirmish gaming in and around Viking-Age Britain. The rules are a stunning example of Dark-Age *Entente Cordiale*, as the brain-child of French gamer Alex Buchel, developed with Jean-Baptiste Folley of Studio Tomahawk and the boys from Gripping Beast. They are published at the same time in both English and French editions (the French edition by Studio Tomahawk). They use a system of dice allocation on 'Battle Boards'. A set number of dice is used for a limited number of units on the tabletop, and each player must think about how the dice can best be deployed according to what the forces need to do that turn. The player needs to allocate dice to a particular unit in order to activate them to do anything (which means that a unit might be able to move more than once but, if the gods of the dice don't favour the player, the unit might languish, unable to do anything for a turn). But the beauty of the mechanisms of the game comes from the fact that the dice can be used more cunningly, to give bonuses when attacking, for example, or even placed on the board to be used in the opponents' turn against their units (or, as the Battle Boards are visible to both players, to threaten to act, which is often important enough!).

The dice are cleverly designed to give a flavour of the period: the names given to the special skills are related to aspects of the period. The fact that the Viking player uses appropriately patterned runic dice to invoke the names of Norse gods and goddesses is a one such example (though read about the meaning of casting runes in Norse mythology and you might feel a little uncomfortable with what you're doing!). The game and the rulebook is peppered, appropriately enough, with quotations from Icelandic sagas. But when the player is thinking about how to place particular dice on the battle board in order to do something or counteract an opponent's move or anticipated move, does it feel like warfare in the period? In a strange way, it does. I came to the gaming table expecting it to feel like a game; and, to an extent it is just that as two distinctly decorated A4-sized 'Battle Boards' are a significant presence on the table. Still, although gameplay is the obvious dominating factor, there is a degree of simulation of action present, too. The gamer has to think carefully about what to do with fatigued units, and how to motivate forces to strike. Each of the dice may give the appearance of a magic power bestowed by capricious gods (not too far from the way some medieval warriors may have thought), and it is in this respect that the miniatures game resembles a board game, but the game deals with the motivations and abilities of warriors at the time, or at least as they might be seen in the literature of the age. For example, as a wargamer brought up on morale and panic tests, I was very interested in the notion that it is seemingly impossible to get a force to run away. Troops disengage from combat but they don't go far, and, if not too fatigued, can come back into action pretty quickly. How realistic this is is questionable, as it seems to suggest that the rules are trying to recreate figures from literature rather than some tangible

Saga Wargames Rules

Matthew B. Caffrey

Saga Wargames Rules:

Tabletop Wargames: A Designers' and Writers' Handbook Rick Priestley, John Lambshead, 2016-11-30 Unlike chess or backgammon tabletop wargames have no single accepted set of rules Most wargamers at some point have had a go at writing their own rules and virtually all have modified commercially available sets to better suit their idea of the ideal game or to adapt favourite rules to a different historical period or setting But many who try soon find that writing a coherent set of rules is harder than they thought while tweaking one part of an existing set can often have unforeseen consequences for the game as a whole Now at last help is at hand Veteran gamer and rules writer John Lambshead has teamed up with the legendary Rick Priestley creator of Games Workshop's phenomenally successful Warhammer system to create this essential guide for any would be wargame designer or tinkerer Rick and John give excellent advice on deciding what you want from a wargame and balancing realism be it in a historical or a fantasy sci fi context with playability They discuss the relative merits of various mechanisms cards dice tables then discuss how to select and combine these to handle the various essential game elements of turn sequences combat resolution morale etc to create a rewarding and playable game that suits your tastes and requirements

Eurogames Stewart Woods, 2012-08-30 While board games can appear almost primitive in the digital age eurogames also known as German style board games have increased in popularity nearly concurrently with the rise of video games Eurogames have simple rules and short playing times and emphasize strategy over luck and conflict This book examines the form of eurogames the hobbyist culture that surrounds them and the way that hobbyists experience the play of such games It chronicles the evolution of tabletop hobby gaming and explores why hobbyists play them how players balance competitive play with the demands of an intimate social gathering and to what extent the social context of the game encounter shapes the playing experience Combining history cultural studies leisure studies ludology and play theory this innovative work highlights a popular alternative trend in the gaming community

Wargaming Campaigns Henry Hyde, 2022-07-20 An authoritative reference guide to building wargaming campaigns featuring a full set of campaign rules tips on creating maps and more Most miniature wargames take the form of simulating a single battle with the opponents either winning or losing and that's that until the next game Such games can be a fun test of tactical skill but it can be even more rewarding if they form part of a wider campaign In a campaign the players commanding the forces have to make the decisions at the strategic level that determine the context of any battles that occur The outcome of these battles will in turn have strategic consequences for the ongoing campaign Although campaigns can be very rewarding many wargamers are deterred by the need to produce maps and devise mechanisms for strategic movement Intelligence logistics recruiting reinforcements keeping track of casualties etc Henry Hyde's excellent book greatly eases this task with masses of sound advice concrete suggestions and even a full set of campaign rules useful for any period Whatever historical or fantasy setting you prefer Henry shows that even simple campaigns can add extra fun to your gaming Praise for Wargaming Campaigns This

big thick tome contains everything you'd ever want to know about creating and running a wargame campaign Historical Miniatures Gaming Society *Pentagon Games* John Prados, 1987 Complete with a detachable game board this combines the fun of realistic and easy to play wargames with a fascinating look at the military's own games and simulations **Behind the Screens** Barrett Williams, ChatGPT, 2025-01-04 Discover the captivating world of Dungeons Dragons like never before with Behind the Screens an explorative eBook that delves into the intricate mechanics and rich history of a game that redefined storytelling and imagination Unearth the roots of tabletop role playing games by tracing the origin of Dungeons Dragons from its early inspirations in wargames and fantasy to the pioneering creativity of Gary Gygax and Dave Arneson Delve into the foundational game mechanics that revolutionized the genre from the mysterious allure of dice mechanics to the complex character creation systems that bring your alter ego to life Explore the evolution of combat systems where grid based tactical battles and the iconic hit point system paved the way for innovative spellcasting mechanics Learn how the delicate balance between luck and probability shapes the strategic depth of the game Behind the Screens also takes you beyond combat examining the non combat systems that enhance character depth through skills proficiencies and a touch of diplomacy Journey through various campaign settings from official modules to bespoke homebrew worlds to appreciate the narrative framework within which adventures unfold Navigate through the influences of various D D editions and witness the dynamic interplay of class and race dynamics where player customization reigns supreme Discover how storytelling and gameplay mechanics intertwine to create immersive experiences From visual aids like maps and miniatures to the latest virtual tabletop tools this eBook offers a comprehensive overview of the tools that bring D D adventures to life It confronts the controversies and innovations that have shaped the game exploring the critical role of community feedback in iterative design and the burgeoning influence of online play Embark on a journey through the design of monsters encounter balancing and the economical dynamics within the game Finally peer into the future of Dungeons Dragons speculating on new mechanics and emerging technologies poised to shape the next era of role playing adventures Unlock the secrets Behind the Screens and take your understanding of Dungeons Dragons to unrivaled heights **Zones of Control** Pat Harrigan, Matthew G. Kirschenbaum, 2016-04-15 A look at wargaming's past present and future from digital games to tabletop games and its use in entertainment education and military planning With examples from Call of Duty Modern Warfare Harpoon Warhammer 40 000 and more Games with military themes date back to antiquity and yet they are curiously neglected in much of the academic and trade literature on games and game history This volume fills that gap providing a diverse set of perspectives on wargaming's past present and future In Zones of Control contributors consider wargames played for entertainment education and military planning in terms of design critical analysis and historical contexts They consider both digital and especially tabletop games most of which cover specific historical conflicts or are grounded in recognizable real world geopolitics Game designers and players will find the historical and critical contexts often missing

from design and hobby literature military analysts will find connections to game design and the humanities and academics will find documentation and critique of a sophisticated body of cultural work in which the complexity of military conflict is represented in ludic systems and procedures Each section begins with a long anchoring chapter by an established authority which is followed by a variety of shorter pieces both analytic and anecdotal Topics include the history of playing at war operations research and systems design wargaming and military history wargaming s ethics and politics gaming irregular and non kinetic warfare and wargames as artistic practice

War Games Thomas B. Allen,1987 **The Art of Wargaming** Barrett Williams,ChatGPT,2025-08-30
