

## **Essay Sample on Family of Origin Paper Essay**

A person's character is determined by many aspects, some of which are inborn or others are imposed on them by the environment, they grow up in. An example of such is when a child is brought up in a family where a submissive wife is beaten by her husband yet still stays in the relationship. The child may grow up thinking that it is okay for a man to beat his wife whenever she goes wrong. If the child is a girl, they may also believe that women are not entitled to human rights, and that they are supposed to be treated with the lowest form of dignity. The family where one grew up in is a significant determinant of what a person is. Those close to them also mold the behavior of the child in their tender ages. This paper is an explanation of the effect that family has on me and what ways I can use my previous experiences to improve my current situation. I am divorced and have two children while my parents are still married and live a normal life based on the standards of other individuals.

### **Father and Mother**

My father owns a shop that deals with cars, and he took care of my four sisters and three brothers. They are loving and caring, considering that they took care of my siblings and me without neglect. It also shows that they are responsible and agreed to carry the burden of raising children until I am mature and can have children of my own now. They are also perseverant in the relationship and love each other a lot. This can be explained in their marriage and the way that they maintain it. It is rare to see a couple that has grown to see their children and grandchildren while they are still together.

### **Parents Relationship**

Looking at the relationship that my parents have, I have been impacted significantly by their behavior and character traits. To begin with, I have learned to accept responsibility. Since my parents took it as one of their primary goals to bring us up in the best manner possible, I have become used to the fact that I am supposed to do the same to my children no matter how hard it may seem for me.

It also causes me pain to know that I could not maintain my marriage as they did with theirs. I would have loved to see my husband, but I am already divorced and have not even been to a long term like they have. My parents are very open with each other and discuss their problems openly whenever they have them. They also assist each other in solving some of the situations they may be faced with. My parents are also forgiving, and they always find a means to resolve the conflicts that they have with each other. My mother tells me that this is one of the critical aspects that guide a marriage.

### **Childhood Years**

Mine was a normal childhood with both parents around ready to look up my every move. They always had a way to bring in new lessons and coach one about good behavior. I was an average performer at school, and this earned me a good portion of their love. Some of my siblings did not do very well in class. My teenage years were also average, with a few scandals, but they all went away
