Mothers and Soldiers Amy Caiazza,2002-09-27 As the Soviet communist regime gave way to democracy the emergence of an entirely new political and social landscape had the potential to turn Russian society upside down In *Mothers and Soldiers* Organizing Men and Women in 1990s Russia Amy Caiazza looks at the effects of this seismic change on gender roles and specifically the role of women in a newly democratic Russia By observing through a gendered lens institutions like the military and the process of making public policy Caiazza finds that despite the institutional disruption the pattern of gender role ideologies maintained continuity from the former times while at the same time embracing aspects of Western feminism

Letters Between Mothers and Daughters Barbara Caine,2018-02-02 There are now many studies of family letters in Europe but most of them focus on marital letters and letters between parents especially mothers and their sons Little attention has been paid to the letters to and from daughters This volume seeks to begin filling that gap by exploring the continuities and changes evident in the letters written between mothers and daughters over several centuries Some of these changes reflect the history of letters and the ways that they were written and delivered especially the move from the use of scribes and couriers in the medieval and early modern period which made both the writing and reading of letters a public affair to the use of pens and the situation in which letters were able to be written in private and read only by the person to whom they were addressed But the letters also reveal the changing nature of the mother and daughter relationship as the formal and more distant ties evident in the early period in which dynastic and other matters were often more important to a mother than her daughter's personal happiness were replaced by closer and more intimate ties and a concern with particular personalities and individual needs This book was originally published as a special issue of *Women's History Review*
