Frank Cervone,Lars G. Svensson,2015-07-01 This collection of research papers provides extensive information on deploying services concepts and approaches for using open linked data from libraries and other cultural heritage institutions With a special emphasis on how libraries and other cultural heritage institutions can create effective end user interfaces using open linked data or other datasets These papers are essential reading for any one interesting in user interface design or the semantic web **Smartland Korea** Dal Yong Jin,2017-02-20 The dramatic advancement of cellphone technology has fundamentally changed our daily lives Smartphones and their applications have created new capital for information and communication technology corporations and changed the way people communicate Because of an interesting

awareness of the significance for digital economy and people's daily culture many countries from the U S to China have massively invested in the smartphone industries since the early 21st century Among them South Korea has become one of the centers for technology development and digital culture although the country was once lagging behind in the penetration of the phones and their apps Yet within the last few years the country has taken a big step toward their goal of becoming a mobile game wonderland by appropriating smartphones and it now exists as a curious test bed for the future of smartphone technology Smartland Korea as the first attempt to comprehensively analyze mobile communication in the context of Korean smartphones looks into a largely neglected focus of inquiry a localized mobile landscape with particular reference to young Koreans engagement with their devices and applications Dal Yong Jin focuses not only on the celebratory achievement of technological advancement but also the significance of social milieu in the development of the smartphones He situates the emergence of smartphones within the growth of mobile technologies and overall telecommunications industries embedded in Korea's information and communication technologies The book examines the technology's innovation and the evolution the digital economy through the lens of political economy and the youth culture embedded in the Korean smartphone context

The Paradox Planet Larry Light,Joan Kiddon,2017-07-18 Beginning with the Age of We in the 1950s and moving to the Age of Me to todaythe Age of Ithis book examines how polarization and anger has changed how companies must manage their brands Larry Light and Joan Kiddon the leaders of Arcature LLC consultants in brand management examine societal changes and global local and personal forces through the lens of marketers They explain how to leverage paradox promises into brand focused strategies and actions that create a pathway to profitability create extraordinary brand experiences for individuals and communities and build strong brands in a world of contradictory needs and benefits In today's world people want their individuality to be recognized but they also want to belong to a group that shares their distinctiveness People want to be independent and interconnected which is the underlying paradox affecting how we make decisions today Navigate how to satisfy conflicting needs and look beyond single minded solutions with the insights and guidance in The Paradox Planet
