Fanie Fourie's Lobola Nape 'a Motana,2014-08-01 Fanie Fourie is a true blue boere seun with an unrepentantly macho approach to love and life in general But his world view undergoes an abrupt reinvention when he is bitten by the louse and bedbug of love and falls head over heels for Dimakatjo Machabaphala a beautiful black nurse In pursuit of true love these lovers must steer a path through the challenging intricacies of inter cultural negotiation and leap the hurdles of racial bigotry tenacious former lovers and the like finally to emerge triumphant as traditionally united man and wife This delightful novel is filled with naughty humor and ironic reversals of stereotype With a deft and humorous pen the author evokes the colliding worlds of traditional and contemporary culture in a South Africa still struggling to renegotiate roles and relationships and shake off the complexes and prejudices of the past

Languages of Instruction for African Emancipation Birgit Brock-Utne,Rodney Kofi Hopson,2005 Languages of Instruction for African Emancipation is a collection of case studies from seven African countries poses questions such as What alternatives are there for educational language policies towards African emancipation What efforts have governments made to change the language policy in favour of African languages and how far have they succeeded What challenges do African learners face when it comes to current language of instruction policies The authors reject a language education policy that neglects the multilingualism existing in Africa that reinforces patterns of privilege that existed in the colonial era further entrenching the schism between the elite and the masses They give short shrift to the new justification of the unjustifiable status accorded to English in Africa as the language of globalisation suggesting that it is not relevant to the vast majority of African lives and their human development The sum of thoughts presented suggests that the answer to the language question provides the key to development challenges and further emancipation of the African peoples which it is argued is at the same time a question that will determine whether Africa will remain a recognisable and distinctive cultural component of humanity or whether Africans will cease to exist culturally as Africans

Multilingual Universities in South Africa Liesel Hibbert,Christa van der Walt,2014-04-03 Focusing on the use of African languages in higher education this book showcases South African higher education practitioners attempts to promote a multilingual ethos in their classes It is a first time overview of multilingual teaching and learning

strategies that have been tried and tested in a number of higher education institutions in South Africa. Despite language in education policies that extol the virtues of multilingualism, practice remains oriented towards English only learning and teaching. In the multilingual contexts of local campuses, this book shows how students and lecturers attempt to understand their multiple identities and use the available languages to create multilingual learning environments. Soshanguve paremiology+ Napjadi Letsoalo, Mpho Ngoepe, 2025-08-15. This scholarly book explores the transformative role of proverbs in cultural education, preservation and scholarly discourse in South Africa. It emphasises the importance of integrating indigenous African knowledge into academic spaces to support decolonisation, re-Africanisation and transformation. Proverbs are presented as tools for promoting multilingualism, multiculturalism, social cohesion and mutual respect in South Africa's diverse society. The book addresses the United Nations UN Sustainable Development Goal (SDG) 4 quality education, SDG 5 gender equity, SDG 9 innovation and SDG 10 reduce inequality. It serves as a teaching resource for proverbs in Northern Sotho, Sepedi, Sesotho, Setswana, Xitsonga, isiZulu, isiXhosa, isiNdebele, siSwati and or Tshivenda, Sotho, Shangaan, Nguni and Venda, as well as Chichewa and Shona, supporting cross-cultural understanding. Grounded in a scholarly project on a multilingual proverbs dictionary, the book applies theoretical frameworks such as conceptual metaphor theory, ethnopragmatics and translation quality assessment to analyse proverbs. This interdisciplinary approach bridges linguistics, anthropology and digital humanities, offering fresh insights into the semantics and cultural significance of proverbs. The chapters in the book explore themes like proverbs in music, their intersection with patriarchy and translation quality assessment. Targeted at scholars and experts in languages, literature, linguistics and digital humanities, the book advances the study of proverbs while fostering cultural awareness and sensitivity. It highlights the value of proverbs as linguistic and cultural assets, enriching academic and practical applications across disciplines.

The Bloomsbury Companion To Lexicography Howard Jackson, 2013-10-10. The Bloomsbury Companion to Lexicography offers the definitive guide to a key area of linguistic study. Each companion is a comprehensive reference resource featuring an overview of key topics, research areas, new directions and a manageable guide to beginning or developing research in the field. Lexicography, as the practice of compiling dictionaries, has a long tradition that has been for much of the time largely independent of linguistics. The direct influence of linguistics on lexicography goes back around 50 years, though longer in the case of learners' dictionaries. The present volume aims to reflect on the research that has been and is being done in lexicography and to point the way forward. It tackles, among other topics, the critique of dictionaries in the electronic medium, the future of historical lexicography in the electronic mode, with special reference to the online Oxford English Dictionary and e-lexicography in general. Sepedi (Northern Sotho) Proverbs Nape'a Motana, 2004. South Africa Alexander Johnston, 2014-07-31 At the heart of South Africa's miracle transition from intractable ethno-racial conflict to democracy was an improvised nation born out of war weariness, hope, idealism and calculated pragmatism on the part of the elites who negotiated the compromise settlement. In the absence of any of the conventional bonds of national consciousness the improvised nation was fixed on the civic identity and national citizenship envisaged in the new constitution. In the twentieth anniversary year of the country's democracy South Africa reviews the progress of nation building in post-apartheid South Africa, assesses how well the improvised nation has been embedded in a shared life for South Africans and offers a prognosis for its future. It draws up a socio-economic profile of the population which is the raw material of nation building. It measures the contributions of the polity and the constitution, religion and values as well as sport and the media to building a sense of national citizenship. The book explains the abrupt discontinuity between the contributions of Nelson Mandela and Thabo Mbeki to nation building and goes on to note the changing focus from reconciliation between black and white to include a concern for social cohesion in a society beset by violent crime, corruption and citizen deviance and dissidence. South Africa reconsiders the short intense life cycle of Afrikaner nationalism and portrays the ambiguous relationships between African nationalism, non-racialism, civic nationalism and African tradition in the ideology and practice of the African National Congress. In doing so it provides a comprehensive analysis of a crucial aspect of South Africa's first twenty years of democracy as well as exploring intriguing questions for the student of nationalism.

A World of Indigenous Languages Teresa L. McCarty, Sheilah E. Nicholas, Gillian Wigglesworth, 2019-03-13 Spanning Indigenous settings in Africa, the Americas, Aotearoa New Zealand, Australia, Central Asia and the Nordic countries, this book examines the multifaceted language reclamation work underway by Indigenous peoples throughout the world. Exploring political, historical, ideological and pedagogical issues, the book foregrounds the decolonizing aims of contemporary Indigenous language movements inside and outside of schools. Many authors explore language reclamation in their own communities. Together the authors call for expanded discourses on language planning and policy that embrace Indigenous ways of knowing and forefront grassroots language reclamation efforts as a force for Indigenous sovereignty, social justice and self-determination. This volume will be of interest to scholars, educators and students in applied linguistics, Ethnic Indigenous Studies, education, second language acquisition and comparative international education and to a broader audience of language educators, revitalizers and policymakers.

Recommendation on Social Protection Floors Tineke Dijkhoff, Letlhokwa George Mpedi, 2016-04-24 Despite the international community's recognition of social protection as a human right, the vast majority of the world's population still has no access to social protection. In a major effort to address this situation, the International Labour Conference unanimously adopted the Social Protection Floors Recommendation, 202 of 2012. However, because of the wide variety of possible schemes and techniques that can be employed to administer them, there is a genuine risk that important values relating to social

protection will be overlooked in implementing the Recommendation This collection of expert essays contains an in depth clarification and analysis of the Recommendation and sets forth a clear and practicable set of principles that can be used both as a policy tool and as an assessment framework for the creation maintenance and supervision of a national social protection floor This book pays detailed attention to each of the Recommendation s key principles including the following state responsibility universality of protection entitlement based in law adequacy and predictability of benefits non discrimination financial solidarity good governance coherence of policies and social participation A special feature of the book is its inclusion of case studies that display innovative social protection schemes focusing on children and families persons of working age particularly informal sector workers and elderly persons A concluding section offers useful insights on measures that can be taken and lessons learned As a deeply informed and practical guide to ways in which states can and do establish and maintain a social protection floor as a fundamental element of their national social protection systems this book has no peers It will be warmly welcomed by jurists concerned with social protection throughout the world by pertinent government agencies at all levels by non governmental organizations and by academics in the field

International Human Rights Law in Africa Christof Heyns, Morne van der Linde, 2022-11-07 Contrary to popular belief there is a vast body of law dealing with human rights in Africa in existence today The first priority at the moment is consequently not the adoption of new norms or the creation of even more structures the most immediate challenge lies in making the existing structures work and ensuring compliance with the norms already accepted by African societies Access to the relevant material constitutes a necessary precondition for any other gains in this field The aim of this reference work is therefore to make African human rights law accessible to all those involved in or interested in human rights law on the continent in order to strengthen its impact Primary documents are introduced and reproduced and presented in a coherent framework The main institutions public and private dealing with human rights in Africa are identified and discussed Comprehensive overviews of the international human rights legal regimes applicable to Africa as well as country reports are provided Access to this body of law will enable judges practicing lawyers academics and other researchers as well as law reformers NGOs activists and students to both ascertain and assert these rights It will also serve to ensure the development

of a stronger indigenous African human rights jurisprudence rooted in local experience history culture and practices This book consequently tries to contribute towards documenting systemising and anchoring the African human rights system This publication replaces and updates the earlier Human Rights Law in Africa Series which appeared on an annual basis from 1996 to 1999 In order to make the publication accessible in Africa the Centre for Human Rights and the Raoul Wallenberg Institute in Sweden have undertaken a targeted distribution campaign on the continent The print edition is available as a set of two volumes 9789004138810

Human Rights Law in Africa, 1997 Christof Heyns, 1998-11-01 The Human Rights Law in Africa Series captures the legal protection of human rights in Africa as it develops every year Each annual volume covers the legal position in respect of human rights in Africa on the level of the United Nations the Organisation of African Unity the national legal systems of all the countries in Africa as it was on the first day of that year The first volume covered the situation on 1 January 1996 It included charts of ratification reprints of the most important international instruments as well as the human rights provisions of the constitutions of the different countries It did not include any commentary This book the second volume in the Series covers the situation as it was on 1 January 1997 It contains documents not included before updated charts of ratification constitutional provisions enacted during the last year and for the first time extensive commentary on the African Charter system as well as the national legal systems of 12 African countries This second volume consequently does not replace the first one but supplements it in the same way that future volumes will supplement this one All the material included is new The Series should be of immense value to judges legal practitioners academics NGOs members of legislatures treaty monitoring bodies dealing with human rights on the African continent The main objective is to contribute towards the development of an indigenous African human rights jurisprudence an essential precondition for the greater realisation of human rights norms in Africa
