RETEACHING ACTIVITY

Throughout history, money has taken many forms, from large stones to seashells to tobacco. Today, although most people use various forms of money every day, few stop to think about the function it serves.

Review your notes for Chapter 14, and list the three major functions of money. Beside each, explain why paper money serves that function better than commodity money, such as seashells.

10. What do you think might happen if the government took all currency, checks, and credit cards out of circulation?

11. What do you think would happen to the economy if the government allowed private individuals and banks to print their own paper money as long as it was backed by gold?
