Rethinking Classroom Design Todd Finley, Blake Wiggs, 2016-03-08 Have you ever entered a building or room for the first time and felt enhanced felt your body relax and spirit elevate The effect of human made environments on learners brains is not subjective According to research studies we all have measurable responses to the design of a space However despite the many resources discussing how to decorate and design elementary school classrooms few resources on middle and secondary level classroom design are available This book fills that gap Moreover the purpose of this guide is to enhance learning spaces boost student performances and positively extend teachers influence Every instance where you make well considered decisions about your classroom helps students lead self actualized lives This book will help you make those decisions by providing information about everything from students favorite seating arrangements to what temperature is ideal for learning And learners will feel that effort every time they step foot in your room

Rethinking Our War on Drugs Gary L. Fisher, 2006-09-30 The National Drug Control Policy has failed its two major functions supply reduction and demand reduction due to faulty assumptions regarding nearly every aspect of the alcohol and drug fields charges author Fisher Yet in spite of overwhelming evidence of this failure policy makers have strongly resisted discussing major changes to the assumptions that underly current policy because of political pressure bias and philosophical intransigence he adds Fisher discusses controversial topics and defends uncommon approaches in chapters focused on subjects including legalization harm reduction the futility of supply reduction the problem of underage drinking and effectiveness of treatment and prevention He proposes a new national policy for drug control including elimination of the war metaphor inclusion of alcohol in the mandate conceptualization of addiction as a public health problem utilization of harm reduction principles to guide policy and discontinuation of approaches that isolate drug and alcohol problems from their connection to broader social

issues such as poverty In this work the premises of the current National Drug Control Strategy are challenged and both Democratic and Republican administrations across the last 10 years are critically examined Statements of the Director of the Office of National Drug Control Strategy are critiqued Major points include that there is no evidence the NDCS has achieved any of its goals that harm reduction should be its guiding principle and supply reduction should not be part of the national strategy
