Seduction & Solitude Danton Remoto, 1995

The Seduction of Space Jules O'Dwyer, 2025-03-11 A bold and far reaching new study of French queer cinema reimagines the relationship between sexuality and space Spatiality has long been a crucial and potent lens for understanding French culture and aesthetics While canonical greats of French cinema such as Jean Luc Godard Agnès Varda and Louis Malle invoked the notion of flânerie to explore ideas of modernism spatial exploration and urban sociality Jules O'Dwyer demonstrates how a

more recent generation of French queer filmmakers continues to engage with and contest this legacy by focusing attention on the cognate practice of cruising Through the work of Jacques Nolot S bastien Lifshitz Christophe Honor Vincent Dieutre Alain Guiraudie and others *The Seduction of Space* draws film theory queer studies and spatial inquiry into close proximity to examine the politics of cruising and the gendering of space Making the case that cinema not only documents the queer spaces of the past but continues to produce them O Dwyer maps the relationships between sex and spatiality as he takes up such varied topics as public sex in the porn theater racial eroticization in the banlieue and the ecocritical valences of rural cruising Foregrounding the crucial role that spatiality plays in shaping the parameters of France s visual cultures and political imaginary *The Seduction of Space* is both an urgent queer reconceptualization of this tradition and a clarion call for film scholars to tarry with the politics of sexuality in all its messiness Retail e book files for this title are screen reader friendly with images accompanied by short alt text and or extended descriptions

Urban Planning in the Global South Richard de Satgé, Vanessa Watson, 2018-03-08 This book addresses the on going crisis of informality in rapidly growing cities of the global South The authors offer a Southern perspective on planning theory explaining how the concept of conflicting rationalities complements and expands upon a theoretical tradition which still primarily speaks to global Northern audiences De Satgé and Watson posit that a significant change is needed in the makeup of urban planning theory and practice requiring an understanding of the conflict of rationalities between state planning and those struggling to survive in urban informal settlements for social conditions to improve in the global South Ethnography as illustrated in the book s case study Langa a township in Cape Town South Africa is used to arrive at this conclusion The authors are thus able to demonstrate how power and conflict between the ambitions of state planners and shack dwellers attempting to survive in a resource poor context have permeated and shaped all state society engagement in this planning

process **Urban Rehearsals and Novel Plots in the Early American City** Betsy Klimasmith, 2021-11-04 *Urban Rehearsals and Novel Plots in the Early American City* sheds new light on the literature of the early US by exploring how literature theatre architecture and images worked together to allow readers to imagine themselves as urbanites even before cities developed In the four decades following the Revolutionary War the new nation was a loose network of nascent cities connected by print Before a national culture could develop local city cultures took shape literary texts played key roles in helping new Americans become city people Drawing on extensive archival research *Urban Rehearsals* argues that literature particularly novels and plays allowed Bostonians to navigate the transition from colonial town to post revolution city enabled Philadelphians to grieve their experiences of the 1793 Yellow Fever epidemic and rebuild in the epidemic s aftermath and showed New Yorkers how the domestic practices that reinforced their urbanity could be opened to the broader public Throughout attention to underrepresented voices and texts calls attention to the possibilities for women immigrants and Black Americans in developing urban spaces while showing how those possibilities would be foreclosed as the nation developed Balancing attention to canonical texts of the early Republic including *The Power of Sympathy* Charlotte Temple and Benjamin Franklin s *Autobiography* with novels whose depiction of early cities deserves greater attention such as *Ormond* *The Boarding School* *Monima* and *Kelroy* this volume shows how US cities developed on the pages and stages of the early Republic building urban imaginations that would construct the nation s early cities **Urban Chroniclers in Modern Latin America** Viviane Mahieux, 2013-11-06 An unstructured genre that blends high aesthetic standards with nonfiction commentary the journalistic crónica or chronicle has played a vital role in Latin American urban life since the nineteenth century Drawing on extensive archival research Viviane Mahieux delivers new testimony on how chroniclers engaged with modernity in Mexico City Buenos Aires and São Paulo during the 1920s and 1930s a time when avant garde movements transformed writers and readers conceptions of literature *Urban Chroniclers in Modern Latin America The Shared Intimacy of Everyday Life* examines the work of extraordinary raconteurs Salvador Novo Cube Bonifant Roberto Arlt Alfonsina Storni and Mário de Andrade restoring the original newspaper contexts in which their articles first emerged Each of these writers guided their readers through a constantly changing cityscape and advised them on matters of cultural taste using their ties to journalism and their participation in urban practice to share accessible wisdom and establish their role as intellectual arbiters The intimate ties they developed with their audience fostered a permeable concept of literature that would pave the way for overtly politically engaged chroniclers of the 1960s and 1970s Providing comparative analysis as well as reflection on the evolution of this important genre *Urban Chroniclers in Modern Latin America* is the first systematic study of the Latin American writers who forged a new reading public in the early twentieth century **Archives of Labor** Lori Merish, 2017-05-04 In *Archives of Labor* Lori Merish establishes working class women as significant actors within literary culture dramatically redrawing the map of nineteenth century US literary and cultural history Delving into previously

unexplored archives of working class women's literature from autobiographies pamphlet novels and theatrical melodrama to seduction tales and labor periodicals Merish recovers working class women's vital presence as writers and readers in the antebellum era Her reading of texts by a diverse collection of factory workers seamstresses domestic workers and prostitutes boldly challenges the purportedly masculine character of class dissent during this era Whether addressing portrayals of white New England factory girls fictional accounts of African American domestic workers or the first person narratives of Mexican women working in the missions of Mexican California Merish unsettles the traditional association of whiteness with the working class to document forms of cross racial class identification and solidarity In so doing she restores the tradition of working women's class protest and dissent shows how race and gender are central to class identity and traces the ways working women understood themselves and were understood as workers and class subjects
