Imagining Multilingual Schools Ofelia García, Tove Skutnabb-Kangas, Maria E. Torres-Guzmán, 2006 This book brings together visions and realities of multilingual schools throughout the world in order to examine the pedagogical socioeducational and sociopolitical issues that impact on their development and success The chapters describe and analyze pedagogical instructional and policy efforts to develop multilingualism through school with different targeted populations immigrant students indigenous peoples traditional minorities majorities and multiethnic multilingual groups Each contribution many written by well known scholars in the field of bilingual and multilingual education affirms the desirability of multilingualism as a societal resource and as a right of individuals while acknowledging the social economic and political differences that make the acquisition of multilingualism easy for some and difficult for others And yet the book focuses on the school as a place of promise and resistance having the potential to preserve recover and expand the world s linguistic diversity The introduction written by the co editors identifies the conceptual threads that are developed throughout the chapters But the chapters themselves remind us of the importance of local conditions despite the global pressures of the 21st century in imagining and creating multilingual educational spaces Resources in Education ,1994 **Sustainable**

Development Goals and Institutions of Higher Education Godwell Nhamo, Vuyo Mjimba, 2019-09-14 This volume brings together both theoretical and case study based contributions to the implementation of the Sustainable Development Goals SDGs in Institutions of Higher Education IHE presenting an impactful combination of authors from both developing and developed countries While most current publications addressing the SDGs and education focus on sustainable development in general and specific topics such as climate change or energy this book attempts to accelerate the localisation of the SDGs by presenting opportunities and innovations offered in various universities and campuses regarding SDGs localisation The book seeks to provide an important contribution to the global dialogue on IHE and the SDGs and will be of interest to academics and researchers engaged in the SDGs and education as well as government agencies and other interested stakeholders The book focuses on curriculum and learning matters research and development as well as community engagement Case studies detail the integration of SDGs in academic and professional development new approaches to implementing sustainability science instruction improvements in teaching practices to enhance teacher competence and responsible management education Additional focus is placed on the alignment of the SDGs in higher education with the other goals emphasizing technological innovation for improved human health and environmental management and climate change policies and action plans Interdisciplinary solutions for pressing environmental problems are also provided making sure that no one is left behind in realising these global development goals *Postcolonial Linguistic Voices* Eric A. Anchimbe, Stephen A. Mforteh, 2011-10-27 This volume investigates sociolinguistic discourses identity choices and their representations in postcolonial national and social life and traces them to the impact of colonial contact The chapters stitch

together current voices and identities emerging within both ex colonized and ex colonizer communities as each copes with the social lingual cultural and religious mixes triggered by colonialism These mixes reflected in the five thematic parts of the book postcolonial identities nationhood discourses translating the postcolonial living the postcolonial and colonizing the colonizer call for deeper investigations of postcolonial communities using emic approaches *Household Income and Expenditure Survey, 2002/03: Main report* Botswana. Central Statistics Office,2004 *2005/06 Labour Force Report* Botswana. Central Statistics Office,2008 Based on data of the 2005 06 Labour Force Survey LFS conducted in Botswana provides information on the economically active population mainly on the size and structure of Botswana s workforce and among others gives baseline information on indicators of employment and unemployment levels informal activities underemployment children s economic activities and household characteristics respectively *Household Income and Expenditure Survey ,2002* *The Journal of the Acoustical Society of America* Acoustical Society of America,2007 **The African Mother Tongue and Mathematical Ideas** Abdul Karim Bangura,2020-06-02 This book by renowned scholar Dr Abdul Karim Bangura combines linguistics and mathematics to show how and why African centred mathematical ideas can be a driving force in Africa s development efforts Bangura explores the concept that Africa has been the centre of the History of Mathematics for thousands of years as the civilizations that emerged across the continent developed contributions which would enrich both ancient and modern understanding of nature through mathematics However scholars and other professionals working in the field of mathematics education in Africa have identified a plethora of issues in carrying out their tasks This is highlighted by one of the most compelling arguments in the book which is that a major reason for these problems is the fact that the African mother tongues has been greatly neglected in the teaching of mathematics in the continent Bangura asserts that a change has to be made in order for Africa to benefit from the exceptional opportunities mathematics offer showing that even if there is a great body of work connecting linguistics and mathematics few analyses have been performed on the link between African languages and mathematics and the ones that have been made are not theoretically grounded on linguistics Thus the book begins by identifying the objects of study of linguistics and mathematics and delineates which ones they have in common Next since the object of study of linguistics is language the nine design features of language are employed to examine each of the objects as it pertains to African languages After that mathematical ideas of sustainability and those of tipping points are suggested as means to help Africa s development efforts **Genome Generation** Elizabeth Finkel,2012-01-01 The year 2001 marked more than just the beginning of Stanley Kubrick s Space Odyssey it marked the beginning of the genome era That was the year scientists first read the 3 billion letters of DNA that make up the human genome This was followed by a veritable Noah s Ark of genomes sponges and worms dogs and cows rice and wheat chimps and elephants 180 creatures aboard so far So what have we learned from all this How has it changed the way we practise medicine grow crops and breed livestock What have we learned about evolution These are the questions

science writer and molecular biologist Elizabeth Finkel asked herself four years ago To find the answers she travelled the science frontier from Botswana to Boston from Warracknabeal to Mexico and tracked down scientists working in the field Their stories told here paint the picture of what it means to be part of the genome generation The Genome Generation is absolutely riveting These tales from the frontier are a must read for everyone who wishes to understand our past the logic of evolution or take a peep into our exciting future at the creation of super plants through digital agriculture R A Mashelkar CSIR Bhatnagar Fellow and India President Global Research Alliance

Tools for Strengths-Based Assessment and Evaluation

Catherine Simmons, 2012-11-08 Traditionally assessment and evaluation have focused on the negative aspects or deficits of a client's presentation. Yet strengths, health, and those things that are going right in a person's life are key protective factors in the prevention and treatment of many mental health problems. Thus, measuring strengths is an important component of a balanced assessment and evaluation process. This is the first compendium of more than 140 valid and reliable strengths-based assessment tools that clinicians, researchers, educators, and program evaluators can use to assess a wide array of positive attributes including well-being, mindfulness, optimism, resilience, humor, aspirations, values, sources of support, emotional intelligence, and much more. These tools provide a clear picture of an individual's strengths while being easy to complete, score, and interpret. The scales and instruments included are consistently formatted, are organized according to construct measures, and include tools for working with adults, couples, families, children, and special populations. They represent a wide range of theoretical approaches and were written by a diverse array of professionals including social workers, psychologists, nurses, physicians, and sociologists.
