Jesus Christ Our Lord C. Norman Kraus, 2004-08-06 In response to readers comments this revised edition provides helpful clarifications charts and expanded notes and references Kraus in a theological description of Jesus Christ offers answers to questions of Jesus identity and the nature of the revelation salvation which came through him This anticipates his volume God Our Savior dealing with implications of Christ s revelation for other data of theology such as God humankind the Holy Spirit church and eschatology For many years the idea of vicarious suffering to atone for the sins of humanity has not been self evident in Western culture to say nothing of the cultures of Asia Western theologians have presupposed Roman categories of guilt and legal penalty as the framework for their explanations However this has been unsatisfactory in cultures where social tradition and shame are primary moral sanctions Observing that the biblical cultural context was more oriented to shame than to a legal concept of guilt Kraus has reinterpreted the meaning and efficacy of the cross as the means of God s salvation Such a reinterpretation requires that one also reevaluate the theological definition of Jesus person How one understands what he did for us is closely related to how one understands who he was His identity and role mutually impact each other Thus one must ask Who was this one who reconciled us to God by suffering the shame of our sin In answer Kraus finds concepts of self identity and self revelation most helpful Jesus the self revelation of God to us is God giving himself to us That self revelation comes as a self giving and only in the form of a genuinely personal historical and human relationship In all of this the author intends to present an authentically biblical picture of Jesus but in the context of modern language and thought forms

Contextualization and the Old Testament Jerry Hwang, 2022-09-26 Christianity is often viewed in Asia as a Western imposition Challenging this Dr Jerry Hwang examines the Old Testament s cultural engagement of its ancient Near Eastern context arguing that Scripture itself provides the ultimate model for contextualizing

theology in Asia While it is common for missiological studies to ignore the Old Testament in their discussion of contextualization truly biblical contextualization must include the whole Bible not simply the New Testament This study provides insightful discourse between the Old Testament and various Asian contexts while demonstrating how Asian perspectives can help overcome the Eurocentrism prevalent in Old Testament scholarship This is an ideal resource for scholars and practitioners interested in a biblical perspective of contextualization especially as related to constructing theology that honors the truth of Scripture in the context of Asia *Framed* Orit Kamir,2006-01-19 Theorizes the emerging field at the intersection of law and film through a detailed feminist analysis of masterpiece films about law from around the world *Performing Identities and Utopias of Belonging* Teresa Botelho,Iolanda Ramos,2014-07-08 Performing Identities and Utopias of Belonging consists of sixteen essays reflecting the current conflicted debate on the ontology constructiveness and affect of categories of ascribed social identity such as gender ethnicity race and nation in the context of British Irish and North American cultural landscapes They address the many ways in which these communities of belonging are imagined iterated performed questioned and deconstructed in literature cinema and visual culture they also support or counter claims about the enhanced value of social identity in the expression of the self in the light of the present debates that surround the contested post identity turn in cultural studies Significantly they also address the role of social identity in the field of utopian and dystopian thought focusing on the projection of imagined futures where alternative means of conceiving ascribed identity are conceptualized The contributions are shaped by a plurality of approaches and theoretical discourses and come from both established and emerging scholars and researchers from Europe and beyond The collection is structured in three sections the politics of un belonging deconstructing utopian and cultural paradigms and performing identities in the visual arts which organize the multidisciplinary discussions around specific nuclei of interrogations *Encyclopedia of Ethics* Lawrence C. Becker,Charlotte B. Becker,2013-10-18 The editors working with a team of 325 renowned authorities in the field of ethics have revised expanded and updated this classic encyclopedia Along with the addition of 150 new entries all of the original articles have been newly peer reviewed and revised bibliographies have been updated throughout and the overall design of the work has been enhanced for easier access to cross references and other reference features New entries include Cheating Dirty hands Gay ethics Holocaust Journalism Political correctness and many more *Remorse* Michael Proeve,Steven Tudor,2016-04-08 Remorse is a powerful important and yet academically neglected emotion This book one of the very few extended examinations of remorse draws on psychology law and philosophy to present a unique interdisciplinary study of this intriguing emotion The psychological chapters examine the fundamental nature of remorse its interpersonal effects and its relationship with regret guilt and shame A practical focus is also provided in an examination of the place of remorse in psychotherapeutic interventions with criminal offenders The book s jurisprudential chapters explore the problem of how offender remorse is proved in court and the contentious issues concerning the effect that remorse and its absence should

have on sentencing criminal offenders The legal and psychological perspectives are then interwoven in a discussion of the role of remorse in restorative justice In *Remorse Psychological and Jurisprudential Perspectives* Proeve and Tudor bring together insights of neighbouring disciplines to advance our understanding of remorse It will be of interest to theoreticians in psychology law and philosophy and will be of benefit to practising psychologists and lawyers

Critical Childhood Studies and the Practice of Interdisciplinarity Joanne Faulkner, Magdalena Zolkos, 2015-12-14 This book analyzes different figurations of childhood in contemporary culture and politics with a particular focus on interdisciplinary methodologies of critical childhood studies It argues that while the figure of the child has been traditionally located at the peripheries of academic disciplines perhaps most notably in history sociology and literature the proposed critical discussions of the ideological symbolic and affective roles that children play in contemporary societies suggest that they are often the locus of larger societal crises collective psychic tensions and unspoken prohibitions and taboos As such this book brings into focus the prejudices against childhood embedded in our standard approaches to organizing knowledge and asks is there a natural disciplinary home for the study of childhood Or is this field fundamentally interdisciplinary peripheral or problematic to notions of disciplinary identity In this respect does childhood force innovation in thinking about disciplinarity For instance how does the analysis of childhood affect how we think about methodology What role do understandings of childhood play in delimiting how we conceive of our society our future and ourselves How does thinking about childhood affect how we think about culture history and politics This book brings together researchers working broadly in critical child studies but from various disciplines in the humanities and social sciences including philosophy literary studies sociology cultural studies and history in order to stage a conversation between these diverse perspectives on the disciplinary or interdisciplinary character of the child as an object of research Such conversation builds on the assumption that childhood far from being marginal is a topic that is hidden in plain sight That is to say while the child is always a presence in culture history literature and philosophy and is often even a highly charged figure within those fields its operation and effects are rarely theoretically scrutinized but rather are more likely drawn upon surreptitiously for another purpose
