international movement Norway sent out more missionaries per capita than any other country in Europe Marianne Gullestad's main contention is that the need to continuously justify their activities to donors in Europe has led to the creation and maintenance of specific ways of portraying Africans The missionary visual rhetoric is both based on earlier visualizations and has over time established its own conventions which can now also be traced within secular fields of activity such as international development agencies foreign policy human relief organizations and the mass media Picturing Pity takes part in the present pictorial turn in academic teaching and research constituting visual images as an exciting site of conversation across disciplinary lines
