Pollution Essay In Punjabi:

Culture, Creation, and Procreation Monika Böck, Aparna Rao, 2001-01-01 As reproduction is seen as central to kinship and the biological link as the primary bond between parents and their offspring Western perceptions of kin relations are primarily determined by ideas about consanguinity genealogical relations and genetic connections Advocates of cultural constructivism have taken issue with a concept that puts so much stress on heredity as being severely biased by western ideas of kinship Ethnologists in particular developed alternative systems using indigenous categories This symbolic approach has however been rejected by some scholars as plagued by the problems of the analytical separation of ideology from practice of largely overlooking relations of domination and of ignoring the questions of shared knowledge and choice This volume offers a corrective by discussing the constitution of kinship among different communities in South Asia and addressing the relationship between ideology and practice cultural models and individual strategies **Punjabi Kinship and Marriage** Paul Hersman, 1981 Ethnographic account of the operation of kin groups in present day rural Indian Punjab the forms and functions of the domestic group lineage and kindred among the predominantly Jat Sikh population Bk jacket **Exploring Gypsiness** Ada I. Engebrigtsen, 2007-10-01 Romania has a larger Gypsy population than most other countries but little is known about the relationship between this group and the non Gypsy Romanians around them This book focuses on a group of Rom Gypsies living in a village in Transylvania and explores their social life and cosmology Because Rom Gypsies are dependent on and define themselves in relation to the surrounding non Gypsy populations it is important to understand their day to day interactions with these neighbors primarily peasants to whom they relate through extended barter The author comes to the conclusion that although economically and politically marginal Rom Gypsies are central to Romanian collective identity in that they offer desirable and repulsive counter images incorporating the uncivilized immoral and destructive other This interdependence creates tensions but it also allows for some degree of cultural and political autonomy for the Roma within Romanian society **Learned Asia: Educationists who's who**, 1992 Religions of the East Stephen Hunt, 2017-05-15 Under the rubric of Religions of the East which includes Buddhism Hinduism Sikhism Jainism and a myriad of Chinese religio philosophies are a vast range of views concerning human sexuality These contrasting attitudes are mapped through this volume on Religions of the East in The Library of Essays on Sexuality and Religion series Part 1 presents previously published articles that explore several Eastern Religions in the way they construct sexuality through expressions of their pertinent holy writings and belief systems as applied in differing historical and cultural contexts Part 2 takes sexual renunciation and asceticism as its focus through the traditions of Hinduism Jainism and the Chinese religious systems Part 3 explores the connection between sexuality gender and sexuality in Hindu and Buddhist customs in varied social settings The final part of the volume includes articles examining Eastern religions in their attitudes towards sexual variants including bi sexuality trans sexuality and contested sexual categories Bhangra Moves Anjali Gera Roy, 2017-07-05 Bhangra is

commonly understood as the hybrid music produced in Britain by British Asian music producers through mixing Panjabi folk melodies with western pop and black dance rhythms This is derived from a Punjabi harvest dance of the same name This book looks at Bhangra s global flows from one of its originary sites the Indian subcontinent to contribute to the understanding of emerging South Asian cultural practices such as Bhangra or Bollywood in multi ethnic societies It seeks to trace Bhangra s moves from Punjab and its return back to look at the forces that initiate and regulate global flows of local texts and to ask how their producers and consumers redirect them to produce new definitions of culture identity and nation The critical importance of this book lies in understanding the difference between the present globalizing wave and previous trans local movements Gera Roy contrasts the frames of cultural imperialism with those of cultural invasion to show how Indian cultures have constantly reinvented themselves by cross pollinating with invading cultures such as Hellenic Persian Arabic and many others in the past By looking at Bhangra s flows to and from India the book revises the relation between culture space and identity and challenges boundaries It weighs both the uses and costs of visibility provided by global networks to marginalized groups in diverse localities and explores whether collaborations between Bhangra practitioners largely of working class origin give ordinary people any control over the circulation of culture in the global village Finally the book considers whether cultural practices can alter hierarchies and power structures in the real world

Hawley, 2008-06-25 India in Africa Africa in India traces the longstanding interaction between these two regions showing that the Indian Ocean world provides many examples of cultural flows that belie our understanding of globalization as a recent phenomenon This region has had and continues to have an internal integrity that touches the lives of its citizens in their commerce their cultural exchanges and their concepts of each other and of themselves in the world These connections have deep historical roots and their dynamics are not attributable solely to the effects of European colonialism modernity or contemporary globalization although these forces have left their mark The contributors to this interdisciplinary volume come from the fields of history literature dance sociology gender studies and religion making this collection unique in its recreation of an entire world too seldom considered as such

walking the city again and again over the course of many years Along the way he joins Sufi study circles and architects doing restoration in the medieval parts of Lahore and speaks with a broad range of storytellers and historians To this Asif juxtaposes deep analysis of the city's centuries old literary culture noting how it reverberates among the people of Lahore today To understand modern Pakistan requires understanding its cultural capital and Disrupted City uses Lahore's cosmopolitan past and its fractured present to provide a critical lens to challenge the grand narratives of the Pakistani nation state and its national project of writing history
