Responding And Thinking Critically Answers The Crucible:

The Crucible of Experience Daniel Burston, 2000-05-19 One of the great rebels of psychiatry R D Laing challenged prevailing models of madness and the nature and limits of psychiatric authority In this brief and lucid book Laing's widely praised biographer distills the essence of Laing's vision which was religious and philosophical as well as psychological The Crucible of Experience reveals Laing's philosophical debts to existentialism and phenomenology in his theories of madness and sanity family theory and family therapy Daniel Burston offers the first detailed account of Laing's practice as a therapist and of his relationships often contentious with his friends and sometime disciples Burston carefully differentiates between Laing and Laingians who were often clearer more confident and more simplistic than their teacher While he examines Laing's theories of madness Burston focuses most provocatively on Laing's views of sanity and normality and on his recognition toward the end of his life of the essential place of holiness in human experience In a powerful last chapter Burston shows that Laing foresaw the present commercialization of medicine and asked pointed questions about what the meaning of sanity and the future of psychotherapy in such a world could be In this as in other matters Laing's questions of a generation ago remain questions for our time

Crucible of Reason Keith David Wyma, 2004 Weakness of will seems to be an inherent part of the human condition We know what we ought to do and how often we knowingly willingly fall short in actual practice How can this be explained and what challenges does it present to systematic explanations of intentional actions In this clear incisive and well written inquiry philosopher Keith Wyma subjects the thought of three prominent intentional

theorists R M Hare Donald Davidson and Thomas Aquinas to the crucible of reason to see whether and how they can account for weakness of will Wyma is careful to clarify which actions count as incontinent or the result of weakness of will they must be performed intentionally even as they are judged as something that ought not to be done His in depth study of Hare Davidson and Aquinas on this important issue is a major contribution to understanding practical rationality and intentional action
