The Juvenile Sex Offender Howard E. Barbaree, William L. Marshall, 2008-06-19 From leading scientists and practitioners this authoritative work examines what is known about the nature and development of juvenile sexual offending the consequences for both victims and perpetrators and approaches to assessment intervention and relapse prevention Pathways of normal sexual development are described and the biological social and psychological processes that lead to sexual conduct problems are investigated The book explores how juvenile offenders are dealt with in the mental health and criminal justice systems reviews available psychological and pharmacological treatment approaches and provides research based recommendations for improving existing practices *Volume 19, Tome II: Kierkegaard Bibliography* Peter Šajda, Jon Stewart, 2017-03-16 The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications The volume is divided into two large sections Part I which covers Tomes I V is dedicated to individual bibliographies organized according to specific language This includes extensive bibliographies of works on Kierkegaard in some 41 different languages Part II which covers Tomes VI VII is dedicated to shorter individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies *Facing Patriarchy* Professor Bob Pease, 2019-10-15 Facing Patriarchy challenges current thinking about men s violence against women Drawing upon radical and intersectional feminist theory and critical masculinity studies the book locates men s violence within the structures and processes of patriarchy Addressing the limitations of current violence prevention policies Bob Pease argues that a nuanced conceptualisation of patriarchy that accounts for a variety of patriarchal structures intersections with other forms of inequality patriarchal ideologies men s peer group relations men s sexist practices and the construction of patriarchal subjectivities is required to understand the links between gender and men s violence against women Pease shows that men s violence against women needs to be understood in the context of other forms of men s violence including violence against boys and other men in the involvement of men in wars and conflicts between nations and men s ecologically destructive practices which constitute a form of slow violence With crucial implications for priorities in violence prevention gender equality promotion and in strategies for engaging men in this work Facing Patriarchy offers new hope for the elimination of men s violence This is an essential book for scholars practitioners activists and policy makers involved in violence prevention in national and international contexts *Stories, Storytellers, and Storytelling* Tom Vine, Sarah Richards, 2022-12-15 This book advances social scientific interest in a field long

dominated by the humanities stories and storytelling Stories are a whole lot more than entertainment oral narratives novels films and immersive video games all form part of the sociocultural discourses which we are enmeshed in and use to co construct our beliefs about the world around us Young children use them to learn about the world beyond their immediate sensory experience and even in an era of interactive electronic media the bedtime story remains a cherished part of most children s daily routine Storytelling is thus the first abstract formal learning method we encounter as human beings It is also probably transcultural perhaps even an immanent part of the human condition Narratives are at heart sequences of events and presuppose and reinforce particular cause and effect relationships Inevitably they also construct unconscious biases prejudices and discriminatory attitudes Storying a term we use in this book to encompass stories storytellers and storytelling is complex and this book seeks to make sense of it
