

William Shakespeare Biography

William Shakespeare was born in Stratford upon Avon on April 23rd 1564. His father John was a successful local businessman and his mother Mary was the daughter of a landowner. Relatively prosperous, it is likely the family paid for William's education, although there is no evidence that he attended university.

In 1582, aged only 18, William married an older woman (26) named Anne Hathaway. Soon after they had their first daughter, Susanna. They had another 2 children but William's only son Hamnet died aged eleven. Information about the life of Shakespeare is sketchy but it seems he spent most of his time in London writing and performing in his plays, only returning home during Lent when all theatres were closed. It is generally thought that during the 1590s he wrote the majority of his sonnets. This was a time of prolific writing and his plays developed a good deal of interest and controversy. *A Midsummer Night's Dream*, *Romeo and Juliet* and *Two Gentlemen of Verona* were written between 1589 and 1595.
