countries mesoscale e.g. different institutions and microscale e.g. specific learner groups. The book consists of four thematic strands. In Part One the learner internal causes of heterogeneity of young language learners are clarified. Part Two presents a sample of classroom studies in which learner variables such as gender, learner preferences and special needs are taken into account. Part Three looks at teaching materials and how they meet learners' needs. Finally, Part Four highlights diversity issues that teachers should be prepared to face.

Hantavirus Outbreak! Susan Fadler, 2016-12-13. Developed in 1993 during a Hantavirus outbreak in the Four Corners area of the Southwest, this curriculum was originally written to help educate children who live in rural areas and help to gather food. Need to understand the dangers of this life-threatening disease and how to remain safe. Curriculum deals specifically with precautionary issues as well as Pulmonary Hantavirus Syndrome. Along with safety, Hantavirus Outbreak also enables teachers to teach thematically across all curriculum. Good for early primary school to High School level with teacher innovation. Ideas and different formats are provided. Creative animal-based curriculum which includes Navajo culture with Aboriginal language added to enhance development and creativity in all children. The activities help parents and educators provide opportunities for children to practice language skills, math, reading, comprehension, science, and health. 1st place winner of the prestigious ASBA Golden Bell Award for new and innovative K-8 curriculum.

Learning without Fear Julia Stead, 2019-06-19. In *Learning without Fear*, a practical toolkit for developing growth mindset in the early years and primary classroom, Julia Stead and Ruchi Sabharwal provide teachers of this age group with a colourful collection of strategies and resources designed to nurture young learners' resilience and learning capabilities. Having a growth mindset can really empower young learners to take risks to extend and deepen their learning. There is, however, more to it than simply adding 'yet' to 'I can't do this'. In *Learning without Fear*, Julia and Ruchi tackle this misconception head-on, combining bite-sized theory with the practical tools and techniques that will enable teachers to map out their pupils' growth mindset journey from the early years up to their departure for the challenges of secondary school. Together, they share tried and tested lesson ideas, questionnaires, and examples of outstanding practice taken from their own very successful classrooms, all colourfully packaged into a complete toolkit that illustrates both the why and the how of successfully embedding growth mindset in early years and primary settings. The book begins with a discussion of the benefits of instilling the traits and attitudes of a growth mindset early on in a learner's life and presents a selection of mini-stories that serve as simple springboards into exploring the mindset of young learners. The full-colour illustrations that accompany the stories are also available as free downloads for teachers' own use in the classroom. To help educators boost their pupils' engagement and empower them to visualise a route to success, Julia and Ruchi advocate employing the analogy of a learning journey from Stuck Island to Got It City. This involves navigating Challenge Ocean, and the authors make this voyage more achievable by providing a survival kit of learning techniques designed to encourage pupils to take ownership in the face of struggle and to use metacognitive devices when tackling tricky tasks. The book's comprehensive series of 39 lesson ideas, one
