

Scenario

The auditing team of your CPA firm has performed an audit engagement for the Cloud9 company, which consists of testing financial statements, internal controls, and other factors that could have an impact on the company's position. Using the Summary of Audit Findings document from this engagement, provided in the Supporting Materials section, you will provide two written audit reports. Each report should include all sections of the audit in accordance with the Generally Accepted Auditing Standards (GAAS) you've studied within this course.

Directions

After reviewing the Scenario and Supporting Materials sections of this document, you will complete an analysis of the audit engagement program using the Summary of Audit Findings document and then write your financial statements and internal controls audit reports.

For each report, you will:

1. Begin by analyzing the results from the Summary of Audit Findings document to identify anomalies, control deficiencies, and materiality that will impact your opinion.
2. You will then identify critical matters to be incorporated into the financial statements and internal controls audit reports. Use the auditing standards provided in the Supporting Materials section to guide your decisions (e.g., AS 2201).
3. Next, you will formulate your opinion, whether a qualified opinion or unqualified opinion, using the correct auditing standard found in the Supporting Materials section. Use these accounting standards along with the results from the Summary of Audit Findings document.
4. Finally, once you have all of the necessary information gathered and your analysis is complete, you will create two written audit reports, one covering financial statements and one covering internal controls. Each audit report will be based on Generally Accepted Auditing Standards (GAAS).

Specifically, you must address the following rubric criteria:

1. **Identify anomalies** found during substantive and control testing for each audit report.
2. **Analyze materiality** of control deficiencies and financial misstatements that impact materiality for each audit report.
3. **Identify critical matters** for each audit report.
4. **Formulate an opinion** of the audit based on audit results for each audit report.
5. **Create audit reports** (a financial statement report and an internal controls report) based on Generally Accepted Auditing Standards. Include the following:
 - A. Type of audit report to be communicated to client
 - B. Title
 - C. Client information
 - D. Introductory paragraph
 - E. Auditor's opinion
 - F. Basis of the opinion
 - i. Client's responsibility
 - ii. Auditor's responsibility
 - G. Critical audit matters
