How to open a disc case and remove a disc

Always handle compact discs with care so that they are not scratched, soiled or damaged.

- A dry soft cloth may be used to wipe dust, fingerprints, etc. off the surface.
- Make absolutely sure not to use any type of volatile agent, such as thinner or benzene. Also avoid using a conventional record cleaner or antistatic agent.
- Avoid placing a disc in direct sunlight, and locations subject to extremely high humidity or low temperature.
- When a disc is going to be left unused for a long period of time, be sure not to leave it in the player but store it in the case.

3. Inserting discs in the 6-compact disc magazine.

Insert the discs in the 6-compact disc magazine while referring to the drawings below. You can insert as many as six discs at a time.

There are numbers from ① to ⑥ starting from the highest tray and going in order. Insert the trays one at a time. When inserting discs, be sure that the label side is facing down.

NOTE:

Be careful not to touch the play side of the disc (side with no label) with your hand. Never insert anything other than discs in the magazine tray.

4. Transmitter Battery Insertion

- ① Push the battery cover on the side of the transmitter in the direction of the arrow and lift it up.

- ② Load the two batteries that came with the transmitter or two batteries listed in the table. Load them with the + and - ends facing as shown in the diagram.

- ③ Put the battery cover back in place.

Batteries

- The remote control transmitter is powered by two batteries. Before using this unit for the first time, insert the two batteries (included) as shown in the diagram.
- Average battery life is about one year. This period may be shorter depending on the frequency of use and environment (temperature and humidity) in which the remote control transmitter is used.
- If the remote control transmitter does not operate even though front panel controls function normally, the batteries should be replaced. Use only batteries listed in the following chart.

Type	Voltage	Size
Manganese	1.5V	AA R6 UM-3

NOTES:

1. Do not leave an expired battery in the case as it may leak or damage the battery case.
2. When inserting the batteries, be sure the (+) and (-) ends are properly aligned.
3. Do not use nickel-cadmium (rechargeable) batteries.
4. Do not use one specified (manganese) battery and one alkaline battery at the same time.
5. Replace both batteries at once; do not use one old and one new battery together.
