currently no such text exists on the intersection of these two areas of study This book draws together these diverse theoretical perspectives to provide an innovative knowledge rich text that is essential reading for all those engaged with the evolution and practice of restorative policing Restorative Policing surveys the twenty five year history of restorative policing practice during which its use and influence over criminal justice has slowly grown It then situates this experience within a criminological discussion about neo liberal responses to crime control There has been insufficient debate about how the concepts of restorative justice and policing sit alongside each other and how they may be connected or disconnected in theoretical and conceptual terms The book seeks to fill this gap through an exploration of concepts theory policy and practice In doing so the authors make a case for a more transformative vision of restorative policing that can impact positively upon the shape and practice of policing and outline a framework for the implementation of such a strategy This pathbreaking book will be of interest to undergraduate and postgraduate students taking courses on restorative justice policing and crime control as well as professionals interested in the implementation of restorative practices in the police force *The Oxford Handbook of Organizational Climate and Culture* Karen M.
