Shah, 2018-07-10 Money does not grow on trees. It actually grows on other money, which is where we get the old saying: It takes money to make money. Money has an amazing ability to make more money. The good news is that it does not take much money to make this happen. Financial planning is a must for every individual. Financial planning goes beyond savings. It is an investment of a behavior. It is planning to save and spend future income. In India, saving money has been an important priority. It is a country where the gross saving has been as high as 30% of the GDP. It would be safe to say that this country has the culture of saving first and spending later. **Carlos Slim** Diego Osorno, 2019-09-24 The biography of Carlos Slim, one of the richest people of all time, is not just the tale of the first man from a developing country to ever reach the top of the Forbes list of billionaires. It is the story of a character who represents the neoliberal mentality of our times, who mistrusts politicians, believes that the market is the most efficient mechanism for everything, even to combat corruption, and sees philanthropy as a social investment with businesses as the exclusive form of collective wealth. In this new book, produced through years of thorough investigation, Osorno examines this symbol of twenty-first century capitalism and of Mexico. Similar surreal dimensions lead Osorno to openly ask whether a man as rich as him can also be a good person. **Magnet Investing** Jordan L. Kimmel, 2000 The secrets of building a successful stock portfolio involve joining the resources of this stock selection program with a home PC. This guide describes the key characteristics common in companies when their stock undergoes a major surge and provides the foundation for individuals to develop a personalized portfolio and money management skills to vastly increase investment success.
