Preparing Children With Disabilities for Life Robert Evert Cimeria, 2002-12-17 Educating students with disabilities is a team process. By federal law, parents must be involved in the development of their child's educational plan. Unfortunately, few parents or regular educators understand special education, its terms, philosophies, and processes. This book explains, in layperson terms, what special education is and how to make the special education process more successful for everyone involved. Chapters cover history and legalities of preparing children with disabilities for life transition of families, preparation for employment, residential living, community adjustment, recreation, interpersonal relationships, life-long learning, and developing educational plans. Hundreds of additional resources for parents of children with disabilities, including lists of professional organizations, useful websites, support groups, and other books for further learning on special education, are also provided. While intended for parents and family members of children with disabilities, it will also be of interest to educators who are unfamiliar with special education as well as special educators who are new to the field.

Making and Unmaking Disability Julie E. Maybee, 2019-09-16 If the future is accessible as Alisa Grishman one of 55 million Americans categorized as having a disability writes in this book's cover image then we must stop making or constructing people as disabled and impaired In this brave new theoretical approach to human physicality Julie E. Maybee traces societal constructions of disability and impairment through Western history along three dimensions of embodiment the personal body the interpersonal body and the institutional body Each dimension has played a part in defining people as disabled and impaired in terms of employment healthcare education and social and political roles Because impairment and disability have been constructed along all three of these bodies unmaking disability and making the future accessible will require restructuring Western institutions including capitalism changing how social roles are assigned and transforming our deepest beliefs about impairment and disability to reconstruct people as capable Ultimately Maybee suggests unmaking disability will require remaking our world
