

Nursing Assessment

1. Part of Nursing Process
2. Nurses use physical assessment skills to:
 - a) Obtain baseline data and expand the data base from which subsequent phases of the nursing process can evolve
 - b) To identify and manage a variety of patient problems (actual and potential)
 - c) Evaluate the effectiveness of nursing care
 - d) Enhance the nurse-patient relationship
 - e) Make clinical judgments

Gathering Data

Subjective data - Said by the client (S)

Objective data - Observed by the nurse (O)

Document: SOAP/IE/R

Assessment Techniques:

The order of techniques is as follows (Inspect – Palpation – Percussion - Auscultation) except for the abdomen which is Inspect – Auscultation – Percuss – Palpate.

A. Inspection – critical observation "always first"

1. Take time to "observe" with eyes, ears, nose (all senses)
2. Use good lighting
3. Look at color, shape, symmetry, position
4. Observe for odors from skin, breath, wound
5. Develop and use nursing instincts
6. Inspection is done alone and in combination with other assessment techniques

B. Palpation – light and deep touch

1. Back of hand (dorsal aspect) to assess skin temperature
2. Fingers to assess texture, moisture, areas of tenderness
3. Assess size, shape, and consistency of lesions and organs
4. Deep = 5-8 cm (2-3") deep; Light = 1 cm deep

C. Percussion – sounds produced by striking body surface

1. Produces different notes depending on underlying mass (dull, resonant, flat, tympanic)
2. Used to determine size and shape of underlying structures by establishing their borders and indicates if tissue is air-filled, fluid-filled, or solid
3. Action is performed in the wrist

D. Auscultation – listening to sounds produced by the body

1. Direct auscultation – sounds are audible without stethoscope
2. Indirect auscultation – uses stethoscope
3. Know how to use stethoscope properly *[practice skill]*
4. Fine-tune your ears to pick up subtle changes *[practice skill]*
5. Describe sound characteristics (frequency, pitch intensity, duration, quality) *[practice skill]*
6. Flat diaphragm picks up high-pitched respiratory sounds best.
7. Bell picks up low pitched sounds such as heart murmurs.
8. Practice using BOTH diaphragms

Sample Nursing Assessment Documentation

Michael Hoelscher

Sample Nursing Assessment Documentation:

Nursing Care Plans & Documentation Lynda Juall Carpenito-Moyet, 2009 The Fifth Edition of Nursing Care Plans and Documentation provides nurses with a comprehensive guide to creating care plans and effectively documenting care This user friendly resource presents the most likely diagnoses and collaborative problems with step by step guidance on nursing action and rationales for interventions New chapters cover moral distress in nursing improving hospitalized patient outcomes and nursing diagnosis risk for compromised human dignity The book includes over 70 care plans that translate theory into clinical practice Online Tutoring powered by Smarthinking Free online tutoring powered by Smarthinking gives students access to expert nursing and allied health science educators whose mission like yours is to achieve success Students can access live tutoring support critiques of written work and other valuable tools *Nursing Care Plans and Documentation* Lynda Juall Carpenito-Moyet, 2005-11-01 Enter the world of nursing care planning with confidence This informative guide is the perfect way to build your care planning and documentation skills Practical and easy to read material covers each phase of care plan development and record keeping for both surgical and non surgical interventions Basic Concepts of Psychiatric-mental Health Nursing Louise Rebraca Shives, 2007 This seventh edition includes new chapters and maintains popular features from previous editions such as self awareness prompts while adding research boxes and student worksheets at the end of each chapter **Health Assessment in Nursing** Janet Weber, Jane Kelley, 2009-10-01 Now in its Fourth Edition Health Assessment in Nursing is a colorful user friendly introductory level health assessment text for RN level students Targeted to ADN and BSN programs this text presumes no prior knowledge of health assessment and is part of a suite that includes Lab Manual to Accompany Health Assessment in Nursing Nurses Handbook of Health Assessment and Weber Kelley s Interactive Nursing Assessment For this edition the COLDSPA mnemonic which guides students through investigation of symptoms has been revised to show specific applications to content in each chapter A sample application of COLDSPA is presented at the beginning of each chapter s Nursing History section and another accompanies each case study The Frail Elderly chapter has been streamlined with a stronger focus on the normal variations associated with assessment of elderly clients Includes DVD ROM **Telephone Triage Protocols for Nurses** Julie K. Briggs, 2007 This quick reference manual presents over 200 triage protocols for evaluating patients symptoms over the telephone Each symptom entry lists questions grouped by urgency level to determine whether the caller should seek emergency care now seek medical care the same day call back for appointment or follow home care instructions Detailed home care instructions are then provided This edition features fourteen new protocols avian influenza bird flu congestive heart failure electrical burns hand wrist problems hip pain injury influenza neurological symptoms newborn problems pertussis severe acute respiratory syndrome SARS sickle cell disease problems substance abuse use or exposure West Nile virus and wound care sutures or staples New appendices include guidelines for scenario practice difficult caller practice scenarios mystery caller practice session temperature

The Nursing Student's Guide to Clinical Success Lorene Payne,2010-01-08 **A Guide for International Nursing Students in Australia and New Zealand - E-Book** Bernadette Hally,2008-11-01 Please note that this eBook does not include the DVD accompaniment If you would like to have access to the DVD content please purchase the print copy of this title This new book is an essential resource for overseas nurses and international students studying nursing in Australia and New Zealand It provides clear concise information about health care and nursing practice in our region and assists the reader to develop essential communication skills for practice **Fundamental Nursing Skills and Concepts** Barbara Kuhn Timby,2009 Now in its Ninth Edition this full color text combines theoretical nursing concepts step by step skills and procedures and clinical applications to form the foundation of the LPN LVN course of study This edition features over 100 new photographs exciting full color ancillaries end of unit exercises and extensively updated chapters on nursing foundations laws and ethics recording and reporting nutrition fluid and chemical balance safety asepsis infection control and medication administration Coverage includes new information on cost related issues emerging healthcare settings concept mapping malpractice documentation and reporting HIPAA and more All Gerontologic Considerations sections have been thoroughly updated by renowned experts *Compliance for Coding, Billing & Reimbursement* Duane C. Abbey,James H.

Handwerk,Mark J. Kaiser,2008-04-02 While the vast majority of providers never intend to commit fraud or file false claims complex procedures changing regulations and evolving technology make it nearly impossible to avoid billing errors For example if you play by HIPAA s rules a physician is a provider however Medicare requires that the same physician must be referred to as a supplier Even more troubling is the need to alter claims to meet specific requirements that may conflict with national standards Far from being a benign issue differing guidelines can lead to false claims with financial and even criminal

implications Compliance for Coding Billing Reimbursement Second Edition A Systematic Approach to Developing a Comprehensive Program provides an organized way to deal with the complex coding billing and reimbursement CBR processes that seem to force providers to choose between being paid and being compliant Fully revised to account for recent changes and evolving terminology this unique and accessible resource covers statutorily based programs and contract based relationships as well as ways to efficiently handle those situations that do not involve formal relationships Based on 25 years of direct client consultation and drawing on teaching techniques developed in highly successful workshops Duane Abbey offers a logical approach to CBR compliance Designed to facilitate efficient reimbursements that don t run afoul of laws and regulations this resource Addresses the seven key elements promulgated by the OIG for any compliance program Discusses numerous types of compliance issues for all type of healthcare providers Offers access to online resources that provide continually updated information Cuts through the morass of terminology and acronyms with a comprehensive glossary Includes downloadable resources packed with regulations and information In addition to offering salient information illustrated by case studies Dr Abbey provides healthcare providers and administrators as well as consultants and attorneys with the mindset and attitude required to meet this very real challenge with savvy humor and perseverance
