RELATION OF THE FOLLOWING INFORMATION TO THE INFORMATION:

How is an assessment for educational services or services for learning provided?

1. Does Sam continue to require speech and language services to meet the listening and speaking component of the curriculum?
2. Does Sam meet special education eligibility to receive speech and language services?
3. What are Sam's current needs regarding speech and language functioning?

Sam is a 5:11 year old kindergarten student currently enrolled in a general education setting with support from speech and language services. Sam is currently eligible for special education services under the area of Intellectual Disability (ID). Sam currently lives with his mother, Morgan, father, Thomas, and two younger sisters, Lisa, A, and Maggie, 7. Sam often is helped by his grandfather, Adam. Sam's parents have expressed concern regarding his speech and language functioning, and occasional verbal/behavioral performance. Sam's parents want what's best for him, and have requested a full verbal educational evaluation, in addition to his speech and language related evaluation. Sam has made significant progress with his language and articulation skills and has currently met all goals.

An IEP dated 11/02/22, for each discipline team identified Sam's primary diagnosis as Developmentally Delayed (DD), with delays in cognitive functioning and language skills, and a secondary diagnosis of Speech and Language Impairment (SLI). The team discussed the best executive assessment (EAC) for Sam was a Speech and Language Composite Measure (SLCM) for preschool. As Sam's most recent annual IEP dated 11/02/22, it was reported that Sam met 440 classroom goals in SLI, Language Arts and Math. Sam had also met 100 speech and language goals. Based on progress made, the team changed Sam's primary eligibility from ID to Intellectual Disability (ID). The team also decided that moving forward to kindergarten, the team wanted an environment for Sam would be general education with support from SLI. In addition, it was reported that due to his young age at the time of initial testing and significant language delays that Sam's cognitive abilities be measured again at his second to get a better picture of his skills.

Sam is a native Spanish speaker. Sam's parents and grandfather speak Spanish at home. Sam has overall Early Communication-English proficiency as documented by his recent CELF-2 scores. The assessment was conducted in Spanish based on CELF-2 scores and that educational reporters were English. Sam passed the most recent listening and music screening performed by the school nurse on 11/02/22.

Previous SLI Assessment Results

On Sam's initial speech and language assessment dated 11/02/22 he was given the Preschool Language Scale-2nd Edition, Spanish Edition (PLS-2). The PLS-2 assesses comprehension and expressive communication skills in children from through 7:11. Sam's Auditory Comprehension resulted score was 123 and Expressive Communication standard score was 72. A Oral Language standard score was not reported.

DESCRIPTIVE OBSERVATIONS OF BEHAVIOR:

Sam entered the speech room willingly with prompting. Sam used appropriate greetings upon entering the room, quickly made eye contact and said "hello" to the SLP. Sam was able to answer questions about school and his family. Sam's general affect appeared typical and happy. At times Sam appeared anxious and somewhat impulsive behaviors, such as talking over the SLP while she was reading test questions, commenting on the picture before a question was asked, kicking his feet and legs, repeatedly tapping both his feet on the ground, staring around in his chair, and making very little eye contact. Sam frequently asked, "Is that the last one?" and at times appeared to have difficulty focusing on the task. Sam attempted all test questions, was well-motivated throughout testing, and did not require any breaks.
