for middle school English

Crazy Twisters!

Most people would agree that a tornado doesn't need any special ingredients to cause massive amounts of destruction. After all, even an EF-0, the weakest category of tornado on the Enhanced Fujita Scale, can do a lot of damage. However, many tornadoes go the extra mile, appearing in places where you least expect them. For example, a tornado once hit a small town in the middle of the desert.

Sun, sand, water, waves...there's nothing quite like a trip to the beach. Occasionally, however, the fun and relaxation are interrupted by every ocean swimmer's worst nightmare – a shark attack! While you or your family may be surprised by a shark attack, for some people, it's a regular occurrence. In fact, about 100 shark attacks occur each year in the United States.

Shark Attack!

When the weather turns cold, most people going on vacation choose to travel to warm places where they can temporarily escape the winter chill. Beach resort or island cruise, anyone? However, if you can't get enough of the snow and ice, perhaps you'd rather spend your winter vacation in the most wintry way possible – in an ice hotel!

An ice hotel is just what it sounds like: it's a hotel made entirely from snow and ice. Most commonly, it's built using a snow-ice mixture called snice, which is stronger and insulates better than snow or ice by itself. Most ice hotels are constructed using a steel frame, which is then filled in with the snice. When the steel frame is taken off, only a thick, sturdy, ice-walled building remains. Some ice hotels are structured like traditional hotels, while others offer guests the chance to stay in the over individual igloos. Regardless of style, all ice hotels depend for their existence on the temperature staying below freezing for the entire winter; consequently, there are only about 20 ice hotels in the world, and they are only found in places like Alaska, Canada, Sweden, Finland, Norway, and high elevations.

Walls aren't the only part of an ice hotel made from ice. Frozen food provides the building material for each chair, couch, table, desk, shelf, and light fixture inside the building as well. (Chairs and couches are covered with animal fur to make them comfortable for sitting.) Many ice hotels even offer amenities such as ice restaurants, bars, churches, and meeting rooms – all carved from solid ice, of course. Even small details like the cups in the ice restaurant are made of small chunks of ice if it can be made from ice, it probably is.

Yes – even the beds in an ice hotel are made of ice. While it might seem a bit uncomfortable, many guests find it to be a unique and memorable experience.

web modern engineering aims at analysing and predicting dynamics behavior of physical systems theory of mechanisms machines is used to understand the relationships between the geometry and motions of the parts of a machine or mechanism and forces which produce motion

course dynamics of machinery eastern mediterranean university - Aug 19 2022

web dynamics of machinery mechanical vibrations 2 dof vibrating systems vibration measuring instruments numerical methods for multi degree of freedom systems dunkerley s equations vibration of continuous systems random vibrations balancing of machinery rigid rotors reciprocating machines flywheels planar linkages balancing

module 8 lecture 1 dynamics of machines youtube - Nov 21 2022

web jan 10 2008 37k views 15 years ago mechanical dynamics of machines lecture series on dynamics of machines by prof amitabha ghosh department of mechanical engineering iit kanpur for more details on nptel

dynamics and control of machines springerlink - Sep 19 2022

web the main dynamic effects in machines are explained the influence of component compliances on accuracy stability and efficiency of the machines is analyzed methods for decreasing internal and external vibration activity of machines are described
