Routledge International Handbook of Critical Gang Studies is rooted in the instability, inequality, and liquidity of the post-industrial era. It understands the gang as a complex and contradictory phenomenon, a socio-historical agent that reflects, responds to, and creates a certain structured environment in spaces which are always in flux. International in scope and drawing on a range of sociological, criminological, and anthropological traditions, it looks beyond pathological, ahistorical, and non-transformative approaches and considers other important factors that produce the phenomenon, whether the historically entrenched racialized power structure and segregation in Chicago, the unconstrained state abandonment of favelas in Brazil, or the colonization, displacement, and dependency of people in Central America. This handbook reflects and defines the new theoretical and empirical traditions of critical gang studies. It offers a variety of perspectives, including: A view of gangs that takes into consideration the global context and appearance of the gang in its various forms and stages of development; An appreciation of the gang as a socio-cultural formation; A race, ethnic, and class analysis of the gang that problematizes dominant assumptions such as the underclass; Gender variations of the gang phenomenon with a particular emphasis on their intersectional properties; Relations between gangs and the political economy that address the dominant mode of production and exchange; Treatments that demonstrate the historically contingent nature of gangs and their changes across time; The contradictory impact of gang repressive policies, institutions, and practices as part of a broader discussion on the nature of the state in specific societies; and Critical methodologies on gangs that involve discussions of visual and textual representations and the problematics of data collection and analysis. Authoritative, multi-disciplinary, and international, this book will be of interest to criminologists, sociologists, and anthropologists alike, particularly those engaged with critical criminology, sociology, youth crime, delinquency, and global social inequality. The Handbook will also be of interest to policy makers and those in the peacebuilding field. *Commerce, Justice, Science, and Related Agencies Appropriations for 2016*. United States Congress. House.
