exploring how immigrants carve out new identities construct meanings and negotiate spaces for themselves within social structures created or mediated by education policy and practice It highlights immigrants that position themselves within global movements while experiencing the everyday effects of federal state and local education policy a phenomenon referred to as glocal global local or localized global phenomena Chapter authors acknowledge and honor the agency that immigrants wield and combine social theories and qualitative methods to empirically document the ways in which immigrants take active roles in enacting education policy Surveying immigrants from China Bangladesh India Haiti Japan Colombia and Liberia this volume offers a broad spectrum of immigrant experiences that problematize policy narratives that narrowly define notions of immigrant citizenship and student Clearinghouse Review ,1991-04 **Creating Contexts for Second Language**

Acquisition Arnulfo G. Ramirez,1995 **Foreign Language Program Articulation** Carolyn Lally,2001-01-30 Few matters induce more dialogue among foreign language educators than the problem of students transition between levels of language study Secondary school teachers worry about how best to prepare their students for the demands of postsecondary language study College instructors struggle with how to integrate a diversely prepared freshman population into their curriculum The mission of this volume has been to assemble the theory research and vision of leaders in the field of foreign language articulation into a single volume which will benefit foreign language educators students program administrators and researchers by presenting models of the most recent articulation efforts in the United States Readers are provided with practical suggestions for facilitating placement at the local level and offered theoretical direction for the future The scope of this work is broad enough to reflect the experience and observations of most educators grappling with placement issues while chapter themes offer concrete and theoretical insight into many individual facets of articulation **Adult Vocational**
