

# English Research Paper: Overview

## Objective One

**Distributed: Wednesday, February 2, 2011**

**Due: Friday, February 4, 2011**

The English Research Paper is the culminating project and assessment of all the writing, reading, and research techniques you have accumulated throughout the course of the year. This vital and pivotal piece of the curriculum affords an opportunity to demonstrate the ability to read, write, speak, apply knowledge, problem solve, and use a myriad of life skills such as time management, organization, and risk-taking and will occur from March until May. The two (2) components of the project are as follows:

### **Research Paper**

The student will self-select and research a topic in which he/she has an interest. The culmination of the research work is a 1250 word (4-5 text pages) research paper organized around a clearly stated thesis and adhering to standard documentation forms (MLA Handbook) and standard manuscript guidelines. Submitted in the fourth marking period, the research paper and standard manuscript grades will appear in the student's fourth marking period Assessment category of grades. The paper will count for 200 points in the Assessment category. **The paper is due on Friday, April 15, 2011 and must be posted on turnitin.com.**

### **Oral Presentation and Defense**

The student will present his/her project to the class. This is not a reading of the paper but a dynamic presentation of the work using visual aids, constructed models, videos, or any other approved media. The student must interact with the class and teacher during the presentation. The Oral Presentation will take place during the fourth marking period and will be reflected in the fourth marking period Assessment categories of grades. The speech will count for 200 points in the Assessment category. **The presentations will take place from May 17-20, 2011.**

### **Note**

In order for this process to be a successful learning experience, this Objectives Packet enables the student to approach this project in a measured way, with each component having a separate due date. Language, research, speaking, and writing assignments given to students during the course of the semester afford opportunities to practice and to perfect further the skills necessary to successfully meet the objectives required to successfully complete the research paper. Students and parents should note that students and their families can locate information, extra copies, and models for all of the needed research requirements on our class website.

Although we will have many opportunities to visit the library in school and to work on writing during class, students are expected to work independently at home and during study halls, if needed. Please also consider that academic programs will still be occurring; therefore, students should manage their time wisely in order to prepare for quizzes, exams, and other academic responsibilities that may be unrelated to the research project.

**Does God Belong in Public Schools?** Kent Greenawalt,2009-01-10

Controversial Supreme Court decisions have barred organized school prayer but neither the Court nor public policy exclude religion from schools altogether In this book one of America s leading constitutional scholars asks what role religion ought to play in public schools Kent Greenawalt explores many of the most divisive issues in educational debate including teaching about the origins of life sex education and when or whether students can opt out of school activities for religious reasons Using these and other case studies Greenawalt considers how to balance the country s constitutional commitment to personal freedoms and to the separation of church and state with the vital role that religion has always played in American society Do we risk distorting students understanding of America s past and present by ignoring religion in public school curricula When does teaching about religion cross the line into the promotion of religion Tracing the historical development of religion within public schools and considering every major Supreme Court case Greenawalt concludes that the bans on school prayer and the teaching of creationism are justified and that the court should more closely examine such activities as the singing of religious songs and student papers on religious topics He also argues that students ought to be taught more about religion both its contributions and shortcomings especially in courses in history To do otherwise he writes is to present a seriously distorted picture of society and indirectly to be other than neutral in presenting secularism and religion Written with exemplary clarity and even handedness this is a major book about some of the most pressing and contentious issues in educational policy and constitutional law today

## Adopting the Beat of Term: An Mental Symphony within **Objective Research Paper**

In a world used by displays and the ceaseless chatter of immediate communication, the melodic splendor and emotional symphony produced by the published word usually fade in to the back ground, eclipsed by the persistent sound and disruptions that permeate our lives. Nevertheless, set within the pages of **Objective Research Paper** a wonderful literary treasure filled with fresh emotions, lies an immersive symphony waiting to be embraced. Crafted by a masterful composer of language, this fascinating masterpiece conducts readers on a psychological journey, well unraveling the concealed songs and profound affect resonating within each cautiously constructed phrase. Within the depths of the touching assessment, we can examine the book is central harmonies, analyze their enthralling writing type, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
