**Robert F. McNergney, Edward R.
Ducharme, Mary K. Ducharme**

Robert F Mcnergney Book:

Images of Mainstreaming Clayton Keller, Robert Mcnergney, 2013-10-15 This work occupies a unique place amongst the array of books addressing the inclusion of students with disabilities in general education classrooms In contrast to the more prescriptive books on the market Images of Mainstreaming emphasizes the extensive use of case studies and the use of reflection on case studies to change teaching practices Its goal is to help preservice and practicing teachers and administrators examine the challenging issue of inclusion from the perspective of other teachers

Educating for Democracy Robert F. McNergney, Edward R. Ducharme, Mary K. Ducharme, 1999-04 Use of case methods to promote democratic teaching learning Part I suggests how why teacher educators can use case methods at preservice inservice levels Part II presents 6 cases designed to stimulate consideration of democratic teaching learn

Consensus William Hayes, 2013-07-01 As we consider the current status of educational reform it is clear that the United States lacks a clear vision as to how to improve our schools In the recent past we have been able to gain support for ideas such as the need for special education programs free and reduced lunches pre school programs and equal educational opportunities for both boys and girls While programs such as these were possible because of a national consensus our challenge today is to agree on the way to move forward Although it is most obvious in our inability to act on No Child Left Behind the failure to define a common vision is true of many other issues in the field of education Without an agreed upon vision which includes the support of those working in our schools true reform will be extremely difficult The purpose of this book is to help the reader understand our differences and to suggest a way that we can reach a consensus on education reform

Legal History of the Color Line Frank W. Sweet, 2005 Annotation This analysis of the nearly 300 appealed court cases that decided the race of individual Americans may be the most thorough study of the legal history of the U S color line yet published

Education and Technology Ann Kovalchick, Kara Dawson, 2003-12-05 This two volume encyclopedia presents over 200 entries that highlight the ways in which educational and communication practices shape our uses of technology From the hand cranked mimeograph to digital video educators have touted each technological advance as the key to improving education Yet often our students seem no better educated today than they were in the days of ink wells and feather pens How can we use technology to achieve real gains in student performance In this new encyclopedia the only book on educational technology designed for the nonexpert scholars in the field describe in jargon free terms how educational practices have shaped our uses of technology and vice versa They discuss the traditions that are the core knowledge base of the field along with the theoretical commercial and social perspectives In a variety of educational contexts kindergarten through postsecondary education corporate and industrial training and distance education they evaluate the latest technologies and products Most importantly they provide clear insights into educational technologies both as delivery systems two way microwave video for example and as content design strategies like web based instruction
