Sample Fire Department Budget:

Fire Department Strategic Planning Mark Wallace, 2006 Successful fire service leaders know that a fire department that isn't moving forward is dying or at least in danger of dying. In this second edition, author Mark Wallace succinctly points out that if you don't know where you're going, any road will take you there. Fire departments that know where they are going, know the environment in which they must operate, and have identified how to get there have the best chance of achieving their goals and desires. These concepts form the foundation of strategic planning. They challenge fire chiefs to escape from the typical operational thinking to begin strategic thinking and ultimately to manage their organizations strategically. Readers will learn about the strategic planning process and why each of the steps in the process is critical if the plan is to succeed. More importantly, while the strategic planning process may be thought of as extremely complicated, this book removes the mystery that some think of when considering strategic planning by providing timely advice and easy-to-use tools to assist in the strategic planning process.

How To Excel At Fire Department Promotional Exams Steve Prziborowski, 2013-10 Getting promoted in the fire service is not an easy process. Many people have that desire to promote, but for whatever reason, cannot put the pieces together to make it a reality. Over the 20-plus years I have been in the fire service, I have had the opportunity to be on both sides of the promotional process as a candidate and as a rater and proctor. This book will assist fire department personnel specifically prepare for their next promotional exam. Promotional candidates will be exposed to and offered key points for the most common tasks and events within a fire department promotional process, including but not limited to promotional preparation, completing the application, resume preparation, the written exam, the oral interview, the personnel problem, the oral presentation, and the emergency simulation.
