Dear Aunt Rita,

Greeting:
A way to begin the letter

I had a wonderful time visiting you this summer. Swimming in your pool was a lot of fun. I liked your slide and playing Marco Polo with my cousins.

Thank you for taking me to the museum too. That was so thoughtful. I learned so much about the Revolutionary War. I wonder if I would be a Patriot or Loyalist?

Body:
Personal message

I will never forget my visit with you. I hope to come back next summer! Will you be able to come see us soon? I miss you!

Closing:
A way to end the letter.

Love,

Ceccarelli offers a history of the development of letter writing in ancient Greece from the archaic to the early Hellenistic period Highlighting the specificity of letter writing as opposed to other forms of communication and writing the volume looks at documentary letters but also traces the role of embedded letters in the texts of the ancient historians in drama and in the speeches of the orators While a letter is in itself the transcription of an oral message and as such can be either truthful or deceitful letters acquired negative connotations in the fifth century especially when used for transactions concerning the public and not the private sphere Viewed as the instrument of tyrants or near eastern kings these negative connotations were evident especially in Athens where comedy and tragedy testified to an underlying concern with epistolary communication In other areas of the Greek world such as Sparta or Crete the letter may have been seen as an unproblematic instrument for managing public policies with inscriptions documenting the official use of letters not only by the Hellenistic kings but also by some poleis **Teaching Academic Writing in European Higher Education** Lennart Björk, Gerd Bräuer, L.

Rienecker, Peter Stray Jørgensen, 2005-12-30 DAVID R RUSSELL English Department of Iowa State University U S A I was fortunate to attend as a visitor from the U S the first European Association for the Teaching of Academic Writing EATAW conference in 2001 at Groningen I was struck by the similarities in the challenges higher education faces on both sides of the Atlantic in terms of developing students academic writing and students learning through writing It is indeed an international problem But I was equally struck by the profound differences in responding to these challenges among nations institutions disciplines and even within disciplines The essays in this extraordinary volume address a growing demand for help with academic writing on the part of students and academic staff alike And they do so in ways that bring fresh approaches not only to Europeans who have only recently begun to study academic writing but also to researchers and academic staff in the U S where we have a century old tradition of attention to the problem but are much in need of these fresh approaches Academic writing has become a problem in higher education all around the world because higher education sits smack
