

LESSON PLAN

Introduction (3 minutes)

ATTENTION:

Relate aircraft accident in which a multi-engine airplane ran off the end of the runway. This could have been avoided by correctly computing the landing distance. Relate similar personal experience of the same type of mishap.

MOTIVATION:

Tell students how landing distance can affect them (any aircraft, plus future application).

OVERVIEW:

Explain what will be learned. Explain how the lesson will proceed. Define landing distance and explain the normal landing distance chart. Then, demonstrate how to solve for landing distance. The students will practice the procedure: at least once with supervision and at least once with as little help as possible. Next, the students will be evaluated according to the standards. Finally, the lesson will conclude with questions and answers, followed by a brief summary.

Body (29 minutes)

EXPLANATION

DEMONSTRATION: (8 minutes)

Define landing distance. Explain the normal landing distance chart to include the scale and interpolation. Ensure students can see demonstration and encourage questions. Demonstrate the procedure using "C with a headwind and "F with a tailwind. Show the normal landing distance chart with given data in the following order:

1. temperature
2. pressure altitude
3. gross weight
4. headwind-tailwind component
5. read ground roll distance from graph

PERFORMANCE SUPERVISION: (15 minutes)

Review standards. Hand out chart and practice problems. Remind students to use a pencil, to make small tick marks, and to work as accurately as possible. Explain that they should follow the procedure on the chart to work the practice problems. Encourage students to ask questions. Check progress of each student continually so they develop skill proficiency within acceptable standards. Reteach any area(s) of difficulty to the class as they go along.

EVALUATION: (6 minutes)

Review procedure again from the chart. Reemphasize standards of acceptable performance including time available. Prepare area for evaluation by removing the task step chart and practice problem sheets, and by handing out the evaluation problems. Ask students to work the three problems according to conditions and standards specified. Terminate evaluation after 6 minutes. Evaluate each student's performance and tactfully reveal results. Record results for use in reteaching any area(s) of difficulty in the summary.

Conclusion (3 minutes)

SUMMARY:

Review lessons with emphasis on any weak area(s).

REMOTIVATION:

Remind students that landing distance will be an important consideration in any aircraft they fly.

CLOSURE:

Advise students that this lesson will be used as a starting point for the next lesson. Assign study materials for the next lesson.

Introduction to Effective Music Teaching Alfred S. Townsend, 2011-10-16 Introduction to Effective Music

Teaching Artistry and Attitude provides the prospective teacher with front line tested strategies and approaches that are based on current research and the author's three decades of service as a public school music educator department chairman and public school district music administrator. Starting with a brief overview of the history of music education in public schools, Alfred Townsend gives the reader a deeper understanding of the importance of music education to all students, gifted or not. Readers then examine artistry, command of content and mastery of methods, and the ABCs of teacher attitude, the critical component that unlocks learning for many students. With an open and accessible writing style, Dr. Townsend reviews the six components of effective teaching, showing that artistry and attitude can be combined to fuel student learning and teacher leadership. Using all of this information, the reader constructs a personal practical philosophy of music teaching and learning that will form the basis for his or her instruction. Readers will also experience artistry and attitude in action through well-written case studies of effective teachers. With increasingly diverse student populations, teachers now face this book provides music teachers with ways to interact effectively with students of all backgrounds, attitudes, and talent.

How Values Education Can Improve Student and Teacher Wellbeing Roger Packham, Margaret Taplin, Kevin Francis, 2024-06-11. Presenting Values Education as a solution to major challenges in education such as student disengagement and teacher burnout, this book provides a wealth of practical advice about how to implement the Education in Human Values approach in schools, promoting wellness and improved educational outcomes. Values Education is a world-wide movement and comes in several forms. This book explains the need for and nature of values education, provides practical, easy strategies for implementing the Education in Human Values (EHV) approach, and outlines the educational theories that underpin it. The practical strategies in this book can be implemented in small increments in all aspects of school life. The focus is on both student and teacher wellbeing. The methods can also be used by teachers to address their own professional and personal challenges and to help them cope with difficult situations that cannot be changed. Written for teachers, teacher educators, and teachers in training, this book is the one-stop shop for gaining a better understanding of values education, how it can support whole-school wellbeing, and how to implement it effectively.
