

PROJECT PROPOSAL: MONKAYO SLAUGHTERHOUSE IMPROVEMENT

DAVE E. APARECIO, JESANNI B. ATIENZA, MARY CHIERIFE C. FUNA
Monkayo College of Arts, Sciences, and Technology (MonCAST)
Davao de Oro, Philippines

ABSTRACT

The expansion of the municipal slaughterhouse is one of the top priorities for the Monkayo local government, which will be undertaken in response to the pressing need for slaughtering services and poultry dressing facilities in the developing local economy. In 2019, the country was affected by the African Swine Flu (ASF). As a result, local government units, pig farmer organizations, veterinary groups, the commercial sector, and academic institutions collaborated to reduce the number of cases. This is also one of the centerpieces of the effort to improve the slaughterhouse services to be able to sustain the safety control of the meat products. With this objective and desirable outcome, the Monkayo municipal administration is working to upgrade the existing meat facilities and ensure they meet the National Meat Inspection Services' standards. The researchers conducted a technical assessment of the project through a feasibility study to evaluate the improvement of the service capacity of the proposed facility. The project is expected to deliver sustainable, ecologically safe, and high-quality products to the municipality, the region, and the entire country.

Keywords: slaughterhouse; African Swine Flu; meat facility; meat processing

PROJECT RATIONALE

The expansion of the municipal slaughterhouse is one of the top priorities for the Monkayo local government, which will be undertaken in response to the pressing need for slaughtering services and poultry dressing facilities in the developing local economy. In 2019, the country was affected by the African Swine Flu (ASF). As a result, local government units, pig farmer organizations, veterinary groups, the commercial sector, and academic institutions collaborated to reduce the number of cases. This is also one of the centerpieces of the effort to improve the slaughterhouse services to be able to sustain the safety control of the meat products. With this objective and desirable outcome, the Monkayo municipal administration will work to upgrade the existing meat facilities and ensure to meet the National Meat Inspection Services' standards.

The Municipality of Monkayo currently has policies in place for Municipal Slaughterhouse/Abattoir and Corral Fees, which include rules and regulations governing the operation, such as obtaining a permit to slaughter, the nature and imposition of fees, and maintaining the municipal abattoir's cleanliness and sanitation. Moreover, in accordance to R.A. 9296 where the local government units shall regulate among others, meat inspection, meat transport and post-abattoir control.

The project is expected to deliver a sustainable, ecologically safe, and high-quality products to the municipality, the region, and the entire country. Specifically, the activities are expected from the project include,

- a. Local ordinance requiring all food businesses to serve only inspected meat in order to provide consumers with access to clean and safe meat products that satisfy "AA" standards.
- b. Operation of the Municipal Slaughterhouse compliant with environmental laws and regulation, ensuring continued compliance with national standards
- c. TESDA accreditation for butchery, slaughtering, and meat processing that would increase farm productivity and livelihood opportunities for the people of Monkayo.
