Global HIV/AIDS Politics, Policy, and Activism Raymond A. Smith, 2013-10-28. An international team of specialists in politics, policy and activism provide an indispensable guide to the persistent challenges and emerging issues posed by the global HIV/AIDS epidemic now in its fourth decade. The HIV/AIDS epidemic is at a critical turning point. Compelling new findings herald the potential to eventually grind the epidemic to a halt through a combination of expanded treatment coverage and new biomedical approaches to prevention. At the same time, the severe global economic downturns have negatively affected wealthy donor nations that have provided the funds and technical support for programs in the developing world. It is against this backdrop that this landmark three-volume set was developed. It provides a broad overview of the critical political issues surrounding HIV/AIDS, inspects key areas of policy and policymaking, and spotlights the most important forms of activism and community mobilization. The volumes reflect an eclectic and wide-ranging set of issues written by an international team comprising dozens of authors from nations including the United States, the United Kingdom, Ghana, South Africa, Brazil, Cambodia, Norway, and Qatar. The international contributors represent a variety of disciplines and bring with them a range of styles and methodological approaches appropriate to their specific topics and disciplines. An important addition to academic and public libraries, this expansive work will benefit students and other readers interested in politics, policymaking, public health, activism, and community mobilization both in the United States and globally.

Performing Migrancy and Mobility in Africa Mark Fleishman, 2014-12-02. *Performing Migrancy and Mobility in Africa* focuses on a body of performance work, the work of Magnet Theatre in particular, but also work by other artists in Cape Town and other parts of the continent or the world that engages with the Cape as a real or imagined node in a complex system of migration and mobility. Located at the foot of the African continent, lodged between two oceans at the intersection of many of the earth's major shipping lanes, Cape Town is a stage for a powerful mixing of cultures and peoples and has been an important node in a network of flows, circuits of movement and exchange. The performance works studied here attempt to get to grips with what it feels like to be on the move and in the spaces in between that characterises the lives now and for centuries before of multiple peoples who move around and pass through places like the Cape. The contributors are a broad

range of mostly African authors from various parts of the continent and as such the book offers an insight into new thinking and new approaches from an emerging and important location *Calendar* University of Zimbabwe,1994 **Music**
Education Michael L. Mark,2008 This book is an eye opening and mind expanding collection of important writings chosen with erudition and situating music education in the long sweep of history from Plato to the present and diverse cultures
