The Paramedic Review is a must have tool for students preparing for either State or National Certification Exams. It includes over 2000 multiple choice style questions based on the revised DOT EMT Paramedic curriculum objectives and content. The exam questions are written in a style similar to those found on State and National Exams and are easy to read. To ensure adequate practice the more complex content chapters have more questions to ensure students are truly prepared.

Delmar's Why Driven EMS Enrichment is the companion text that explains the rationale for answers to the exam review questions. This is an indispensable tool for all paramedic students preparing for their certification exam.

Emergency Medical Services, 2002. Resources in Education, 2001. *Chemical Warfare Agents*. Brian J. Lukey, James A. Romano Jr., Harry Salem, 2019-04-11. The first edition of this book *Chemical Warfare Agents Toxicity at Low Levels* was published just prior to the terrorist attacks of September 11, 2001. The second edition titled *Chemical Warfare Agents Pharmacology Toxicology and Therapeutics* included new epidemiological and clinical studies of exposed or potentially exposed populations, new treatment concepts and products, improved organization of the national response apparatus addressing the potential for CWA terrorism and improved diagnostic tests that enable rapid diagnosis and treatment. Since the second edition the chemical warfare agent community has worked hard to advance research for protection and treatment and develop/improve response approaches for individuals and definitive care. Consequently, in addition to updating previous chapters *Chemical Warfare Agents Biomedical and Psychological Effects Medical Countermeasures and Emergency Response* Third Edition features several new chapters that address the Syrian War, chemical destruction, the Organisation for the Prohibition of Chemical Weapons, biomarkers for chemical warfare agent exposure, field sensors, aircraft decontamination, lung human on a chip, chemical warfare response decision making and other research advancements. Features: Describes the newest medical interventions and the latest technologies deployed in the field as well as developments in the international response to CW usage, highlighting recent events in the Middle East. Discusses the latest in organizational interagency partitioning in terms of responsibilities for emergency response not just in the United States but at the international level, whether prevention, mitigation, medical care, reclamation or medico-legal aspects of such response. Contains the most current research from bench level experts. The third edition contains the most up to date and comprehensive coverage of the question of chemical warfare agent employment on the battlefield or in terrorism. Edited by
