A New Understanding of Terrorism M.R. Haberfeld, Agostino Hassell, 2009-07-09 Terrorism is a complex phenomenon that cannot be understood through reading of a number of unrelated academic articles or a dry overview of the history of terrorism or the investigative techniques For A New Understanding of Terrorism the Editors have chosen a different paradigm They have selected numerous case studies from actual events that illustrate various typologies of terrorist actions be it from a separatist nationalist lone wolf individual terrorist religious fanatics or environmentalist orientation and they present these cases within the context of following the trajectories of the terrorist activity the terrorist act itself and the response to the event from the relevant authorities Some chapters concentrate on terrorist attacks that actually took place others speculate about the possibilities of an attack occurring sometime in the future such as the chapters on the Olympic Games Aviation or Rail Security When possibilities rather than a specific event are discussed the authors of these chapters draw the attention of the reader towards the same direction the reasoning the actual event and the response

that followed The thorough analysis of the presented case studies and the applied counter measures will hopefully if not curtail then possibly at least mitigate the operational and ideological strength of terrorist groups or individual actors A New Understanding of Terrorism will enable the reader to make the connection between the emotional charge inherent in any terrorist activity the cold blooded tactics that lead to the terrorist event itself and the pragmatic and very straightforward but at the same time very simplistically designed strategic response that has to come from a synergy between academics military and law enforcement brainstorming design in order to be more effective in the future ABOUT THE EDITORS M R Maki Haberfeld is a Professor of Police Science at John Jay College of Criminal Justice in New York City She has worked for the U S Drug Enforcement Administration in the New York Field Office as a special consultant Prior to that she has served in a counter terrorist unit in the Israeli Defense Forces and she left the army at the rank of Sergeant She was also a lieutenant in the Israel National Police For the past eight years Dr Haberfeld has been involved in developing coordinating and teaching in a special training program for the New York City Police Department where she teaches courses in police ethics leadership and counter terrorism She was also an Academic Coordinator of the Law Enforcement Executive Police Institute for the State of New York where she taught modules on counter terrorism response Agostino von Hassell is the president of The Repton Group LLC a New York City based consulting group that deals mostly with national security issues He has written numerous political and historical articles and is the author of two major military histories Warriors The United States Marine Corps and Strike Force Marine Corps Special Operations In 2003 he published a pictorial portrait of the United States In Honor of America He has taught as an adjunct professor in the graduate program of John Jay College of Criminal Justice in New York teaching members of the New York City Police Department in subjects such as counter terrorism and leadership He is a life member of the United States Marine Corps Combat Correspondents the National Defense Industry Association the Association of Former Intelligence Officers and the Authors Guild **Terrorism and Peacekeeping** Volker

Franke, 2005-01-30 Over the last decade asymmetric warfare and terrorism have become prevalent threats to the United States National security today more than at any other time demands decision making under uncertainty The issues presented in this book demonstrate that the value of planning depends upon how well the United States can prepare for a perpetually unpredictable future Each chapter examines pertinent management leadership and accountability issues related to U S national security and places readers at the center of difficult decisions Although the cases collected in this volume revolve around national security related policy questions they also illustrate more general policy dilemmas and are designed to stimulate new ideas Middle Eastern Terrorism Mark Ensalaco, 2012-04-17 Selected by Choice magazine as an Outstanding Academic Title Since the first airplane hijacking by the Popular Front for the Liberation of Palestine in September 1970 Middle Eastern terrorists have sacrificed innocent human lives in the name of ideology From Black September to the Munich Olympics to the embassy bombing in Beirut to the devastating attacks of September 11 and beyond

terrorism has emerged as the most important security concern of our time Where did this come from Inspired by a student s question on the morning of September 11 2001 Mark Ensalamo has written a thoroughly researched narrative account of the origins of Middle Eastern terrorism addressing when and why terrorists started targeting Americans and American interests and what led to the September 11 attacks Ensalamo reveals the changing of motivations from secular Palestinian nationalism to militant Islam and demonstrates how competition among terrorists for resources and notoriety has driven them to increasingly extreme tactics As he argues terrorist attacks grew from spectacle to atrocity Drawing on popular works and scholarly sources Middle Eastern Terrorism tells this story in rich detail and with great clarity and insight **Fool Me**

Twice: Intelligence Failure and Mass Casualty Terrorism Thomas Copeland,2007-07-30 This study evaluates whether surprise and intelligence failure leading to mass casualty terrorism are inevitable It explores the extent to which four factors failures of public policy leadership analytical challenges organizational obstacles and the inherent problems of warning information contribute to intelligence failure The study applies existing theories of surprise and intelligence failure to case studies of five mass casualty terrorism incidents World Trade Center 1993 Oklahoma City 1995 Khobar Towers 1996 East African Embassies 1998 and September 11 2001 A structured focused comparison of the cases is made using a set of thirteen probing questions based on the factors above The study concludes that while all four factors were influential failures of public policy leadership contributed directly to surprise Psychological bias and poor threat assessments prohibited policy makers from anticipating or preventing attacks Policy makers mistakenly continued to use a law enforcement approach to handling terrorism and failed to provide adequate funding guidance and oversight of the intelligence community The study has implications for intelligence reform information sharing congressional oversight and society s expectations about the degree to which the intelligence community can predict or prevent surprise attacks *Congressional Record* United States.
