Networked Services and Applications - Engineering, Control and Management Finn Arve Aagesen, Svein J. Knapskog, 2010-06-17 The EUNICE European Network of Universities and Companies in Information and Communication technology <http://www.eunice-forum.org>

mission is to jointly develop and promote the best and most compatible standard of European higher education and professionals in ICT by increasing scientific and technical knowledge in the field of ICT and developing their applications in the economy. The EUNICE Workshop is an annual event. This year the workshop was sponsored by IFIP TC 6 WG 6.6 Management of Networks and Distributed Systems. Eight years ago the seventh edition of the EUNICE workshop took place in Troheim with the topic Adaptable Networks and Teleservices. Since then adaptability has become a topic which is found in most ICT conferences. The concept teleservices, which is a telecommunication domain concept from the 1980s, has been lifted out of the telecom community and is now found with new and sometimes mysterious names such as service oriented architecture and cloud computing.

Spam Kings Brian S McWilliams,2014-09-09 People are stupid. Davis Wolfgang Hawke thought as he stared at the nearly empty box of Swastika pendants on his desk. So begins Spam Kings, an investigative look into the shady world of email spammers and the people trying to stop them. This compelling exposé explores the shadowy world of the people responsible for today's junk email epidemic. Investigative journalist Brian McWilliams delivers a fascinating account of the cat and mouse game played by spam entrepreneurs in search of easy fortunes and anti spam activists. McWilliams chronicles the activities of several spam kings, including Hawke, a notorious Jewish born neo-Nazi leader. You'll follow this 20 year old's rise in the trade where he became a major player in the lucrative penis pill market, a business that would make him a millionaire and the target of lawsuits. You'll also meet cyber vigilantes such as Susan Gunn who have taken up the fight against spammers like Hawke. Explore the sleazy spammer business practices, the surprising new partnership between spammers and computer hackers, and the rise of a new breed of computer viruses designed to turn the PCs of innocent bystanders into secret spam factories.

Spam Wars Danny Goodman,2004 Spammers, scammers, and hackers are destroying electronic mail. The email inbox that once excited you with messages from friends, family, and business prospects now causes outright dread and rage. With unsolicited and unwelcome email accounting for as much as 80% of the world's email traffic, it's time for all email users to act to turn the tide in this epic battle for their privacy and sanity. Spam Wars, veteran and award-winning technology interpreter Danny Goodman, exposes the often criminal tricks that spammers, scammers, and hackers play on the email system, even with the wariest of users. He also explains why the latest anti-spam technologies and laws can't do the whole job. Spam Wars provides the readers with the additional insight not only to protect themselves from attack but more importantly to help choke off the economies that power today's time-wasting email floods. Spam Wars puts to rest many popular misconceptions and myths about email while giving readers the knowledge that email attackers don't want you to have. Danny Goodman's crystal clear writing can turn any email user into a well-armed spam warrior.
