Rwanda: Rebuilding of a Nation A Ndahiro,J. Rwagatare,2015-12-01 Rwanda Rebuilding of a Nation is a story that takes the reader through a sweeping panorama of Rwandas history from its recent past as a nearfailed state to its present as a beacon of hope and successful innovations Rwandas rise from the ashes detailed in this book is the culmination of a visionary and laborious process of rebuilding a nation from the brink of collapse It is also a story of reconciling a people that had been taught to see each other as enemies Twenty years ago the world wrote off Rwanda after the worst genocide in recent times left over one million of its people dead and another three million in refugee camps in neighbouring countries The country was broken in every way possible socially culturally economically and politically Today Rwanda has been rebuilt and has become a respectable country receiving many international accolades for its extraordinary leadership and achievements The backbone and custodian of this agenda has been and remains the Rwanda Patriotic Front RPF This was the case right from its inception before and during the liberation struggle to the implementation of this transformation The book traces the success of the RPF driven transformation which derives from the combination of three interrelated factors First a people centred governance that has spearheaded community development ownership and accountability Second home grown initiatives in different sectors that have helped to adequately respond to extraordinary challenges And third a visionary leadership that listens to its people and inspires them towards self reliance and dignity Finally the book shows that Rwandas achievements have been possible because the RPFs development agenda is built on power sharing consensus building gender equality and the primacy of security
