As an employee, one of the major recounting issues I face in an organization is absenteeism. This problem is very prevalent in our organization, which has a large number of employees. As a result, the company has lost a significant amount of resources through absenteeism. This behavior has been prevalent in our organization, a situation that has resulted in much efficiency in the organization.

There are several ways through which this problem can be overcome. One of the most effective ways is by integrating effective organizational behavior aspects in the organization's operations. This can help in promoting positive behavior among the employees by increasing the overall performance.
