1. Introduction

The aim of this research guide is to give an introduction to some of the main debates regarding internal displacement. Although the guide concentrates on conflict induced internal displacement, causes of internal displacement are extremely complex and the displacement of populations due to environmental change, natural disasters, and development projects is often interlinked with and simultaneous to conflicts causing the forced movement of people (Banerjee et al. 2005, Birkeland 2003a,b, Cernea and McDowell 2000, Haug 2003, Lund 2003, Muggah 2003, Qadem 2005).

It is easy when discussing internal displacement to fall into an instrumental language and deal only with concepts, definitions and categories. This research guide aims to summarise the challenge of internal displacement at a policy level, but also to address its social consequences and explore the experiences of many internally displaced persons (IDPs) of physical dislocation, separation from everyday practices and familiar environments, social disruption and material dispossession.

Research Guide On Internal Displacement:

Migration and Displacement in the IGAD Region Michael Omondi Owiso, Fekadu Adugna Tufa, Abdi Mohamud Hersi, 2025-04-05 This book delves into the dynamics of human mobility and migration in the Intergovernmental Authority on Development IGAD region during the COVID 19 pandemic. It uses empirical sources from extensive fieldwork in the region to assess the impact of COVID 19 on conflict induced internally displaced persons (IDPs), vulnerable and disadvantaged groups, the response of the government, and IDPs coping mechanisms. It traces migration governance from regional and national perspectives and shares the opportunities and challenges in the region. The book presents the lessons learned and shares a way forward for the region during future pandemics. Chapters cover topics such as the protection of migrant workers' rights, livelihoods of cross border traders and communities, and the gender dimension of COVID 19 impacts. It is a valuable read for students, policymakers, policy advisors, academics, and all those interested in studies on migration and migration related diversities.

Introduction to Migration Studies Peter Scholten, 2022-06-03 This open access textbook provides an introduction to theories, concepts, and methodological approaches concerning various facets of migration and migration related diversities. It starts with an introduction to migration studies and continues with an introductory reading of migration drivers, migration infrastructures, migration flows, and several transversal topics such as gender and migration. It also covers politics, policies, and governance, as well as specific research methods. As an interactive guide, this book develops an innovative format that brings a connection with various online sources. This means that whereas the chapters bring together literature in a coherent way, they are also connected to IMISCOE's online interactive Migration Research Hub for further reading and for more empirical material on migration and diversity. As such, this textbook provides a very useful introductory reading for undergraduate and graduate students, as well as for policymakers, policy advisors, and all those interested in studies on migration and migration related diversities.

Georgian Internally Displaced People Hazar Ege Gürsoy Erdenay, 2025-02-27 This book explores the construction of Internally Displaced Persons (IDPs) identity as a social group in Georgia, framed through Tajfel and Turner's Social Identity Theory. It examines the key factors shaping the identity of Georgian IDPs displaced by ethnic conflicts in two major migration waves: the early 1990s and 2008 from Abkhazia and South Ossetia. Divided into two parts, the study first looks at the historical context of the ethnic conflicts and the state's responses to displacement. The second part focuses on the formation of IDP identity, analyzing how external definitions by the host community have perpetuated devaluation throughout the post-Soviet period. It also highlights the self-perceptions, characteristics, and tactics that have helped transform IDP identity from a devalued label to a more positive and resilient social identity.
