

Research Paper Assignment

Compose an essay that thoroughly addresses your proposed topic. Refer back to your prospectus. Clearly identify your topic in a well-developed thesis, and then support that thesis by presenting your research in an orderly, cohesive manner that ends in a well-formatted conclusion. The thesis is the road map for your essay and the conclusion needs to bring it to a logical end that clearly addresses the thesis.

Field and library research are required for this paper. Think about whom to interview as you narrow your focus. Prepare your interview questions carefully and, if you decide to conduct a survey, prepare a draft of that at the same time. Refer to your text for reminders about interviews and surveys as well as other types of field research. This essay assignment includes research components to help you better understand what will be required of you later in your academic career.

Each component of this paper will receive a grade. It is extremely important that you complete each section according to instructions and submit each section *when it is due*. Make it your very best effort insofar as grammar, punctuation, and composition skills are concerned. The components of this assignment are listed below along with their value towards the 200 point project total.

Component	Value	Length	Due Date
Prospectus	50 points	1 page	April 8
