Research Paper On Death Penalty:

The Death Penalty Roger Hood, Carolyn Hoyle, 2015-01-08 The fifth edition of this highly praised study charts and explains the progress that continues to be made towards the goal of worldwide abolition of the death penalty The majority of nations have now abolished the death penalty and the number of executions has dropped in almost all countries where abolition has not yet taken place Emphasising the impact of international human rights principles and evidence of abuse the authors examine how this has fuelled challenges to the death penalty and they analyse and appraise the likely obstacles political and cultural to further abolition They discuss the cruel realities of the death penalty and the failure of international standards always to ensure fair trials and to avoid arbitrariness discrimination and conviction of the innocent all violations of the right to life They provide further evidence of the lack of a general deterrent effect shed new light on the influence and limits of public opinion and argue that substituting for the death penalty life imprisonment without parole raises many similar human rights concerns This edition provides a strong intellectual and evidential basis for regarding capital punishment as undeniably cruel inhuman and degrading Widely relied upon and fully updated to reflect the current state of affairs worldwide this is an invaluable resource for all those who study the death penalty and work towards its removal as an international goal

for future debates on the subject *The Death Penalty in Contemporary China* S. Trevaskes, 2012-07-16 China's infamous death penalty record is the product of firm Party state control and policy setting. Though during the 1980s and 1990s the Party's emphasis was on kill many, in the 2000s the direction of policy began to move toward kill fewer. This book details the policies, institutions, and story behind the reform of the death penalty.

The Death Penalty as State Crime Laura L. Finley, 2024-03-27 This book offers a new perspective on the death penalty in the US, examining capital punishment as state crime or state-produced harm. It addresses the death penalty, showing how the state not only authorizes a system and a practice that tortures human beings but is also aware of its deep flaws and chooses not to address them. Building on the vast literature on state crime, together with case examples and interviews with activists seeking to abolish the death penalty, this book offers a new and innovative critique of state punishment in the US. It draws on a range of issues and topics such as arbitrariness, inadequate counsel, racial bias, mental illness, innocence conditions on death row, the protocols and the equipment used for executions. It emphasizes the need for abolition of the death penalty and highlights efforts being made to do so, with a focus on successful elements of abolition campaigns. *The Death Penalty as State Crime* is essential reading for all those engaged with capital punishment, human rights, and state crime, and will be of interest to criminologists, sociologists, legal scholars, and political scientists alike.

The Death Penalty in America Robert M. Bohm, 1991 **Routledge Handbook on Capital Punishment** Robert M. Bohm, Gavin Lee, 2017-12-15 Capital punishment is one of the more controversial subjects in the social sciences, especially in criminal justice and criminology. Over the last decade or so, the United States has experienced a significant decline in the number of death sentences and executions. Since 2007, eight states have abolished capital punishment, bringing the total number of states without the death penalty to 19, plus the District of Columbia, and more are likely to follow suit in the near future. Nebraska reinstated its death penalty in 2016. Worldwide, 70 percent of countries have abolished capital punishment in law or in practice. The current trend suggests the eventual demise of capital punishment in all but a few recalcitrant states and countries. Within this context, a fresh look at capital punishment in the United States and worldwide is warranted. The Routledge Handbook on Capital Punishment comprehensively examines the topic of capital punishment from a wide variety of perspectives. A thoughtful introductory chapter from experts Bohm and Lee presents a contextual framework for the subject matter, and chapters present state-of-the-art analyses of a range of aspects of capital punishment, grouped into five sections: 1. Capital Punishment History, Opinion, and Culture; 2. Capital Punishment Rationales and Religious Views; 3. Capital Punishment and Constitutional Issues; 4. The Death Penalty's Administration; and 5. The Death Penalty's Consequences. This is a key collection for students taking courses in prisons, penology, criminal justice, criminology, and related subjects, and is also an essential reference for academics and practitioners working in prison service or in related agencies.

The Slow Death of the Death Penalty Todd C. Peppers, Jamie Almallen, Mary Welek Atwell, 2025-07 The book is a postmortem examination of what has killed the death penalty in states

across the country Statistical Challenges in Assessing and Fostering the Reproducibility of Scientific Results National Academies of Sciences, Engineering, and Medicine, Division on Engineering and Physical Sciences, Board on Mathematical Sciences and Their Applications, Committee on Applied and Theoretical Statistics, 2016-02-29 Questions about the reproducibility of scientific research have been raised in numerous settings and have gained visibility through several high profile journal and popular press articles Quantitative issues contributing to reproducibility challenges have been considered including improper data measurement and analysis inadequate statistical expertise and incomplete data among others but there is no clear consensus on how best to approach or to minimize these problems A lack of reproducibility of scientific results has created some distrust in scientific findings among the general public scientists funding agencies and industries While studies fail for a variety of reasons many factors contribute to the lack of perfect reproducibility including insufficient training in experimental design misaligned incentives for publication and the implications for university tenure intentional manipulation poor data management and analysis and inadequate instances of statistical inference The workshop summarized in this report was designed not to address the social and experimental challenges but instead to focus on the latter issues of improper data management and analysis inadequate statistical expertise incomplete data and difficulties applying sound statistic inference to the available data Many efforts have emerged over recent years to draw attention to and improve reproducibility of scientific work This report uniquely focuses on the statistical perspective of three issues the extent of reproducibility the causes of reproducibility failures and the potential remedies for these failures **The Death Penalty in America** Hugo Adam Bedau, 1998-05-28 A J Richards **Deterrence and the Death Penalty** National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on Deterrence and the Death Penalty, 2012-05-26 Many studies during the past few decades have sought to determine whether the death penalty has any deterrent effect on homicide rates Researchers have reached widely varying even contradictory conclusions Some studies have concluded that the threat of capital punishment deters murders saving large numbers of lives other studies have concluded that executions actually increase homicides still others that executions have no effect on murder rates Commentary among researchers advocates and policymakers on the scientific validity of the findings has sometimes been acrimonious Against this backdrop the National Research Council report Deterrence and the Death Penalty assesses whether the available evidence provides a scientific basis for answering questions of if and how the death penalty affects homicide rates This new report from the Committee on Law and Justice concludes that research to date on the effect of capital punishment on homicide rates is not useful in determining whether the death penalty increases decreases or has no effect on these rates The key question is whether capital punishment is less or more effective as a deterrent than alternative punishments such as a life sentence without the possibility of parole Yet none of the research that has been done accounted for the possible effect of noncapital punishments on homicide rates The report recommends new avenues of research that

may provide broader insight into any deterrent effects from both capital and noncapital punishments

Capital Punishment in Twentieth-Century Britain Lizzie Seal, 2014-03-05 Capital punishment for murder was abolished in Britain in 1965 At this time the way people in Britain perceived and understood the death penalty had changed it was an issue that had become increasingly controversial high profile and fraught with emotion In order to understand why this was it is necessary to examine how ordinary people learned about and experienced capital punishment Drawing on primary research this book explores the cultural life of the death penalty in Britain in the twentieth century including an exploration of the role of the popular press and a discussion of portrayals of the death penalty in plays novels and films Popular protest against capital punishment and public responses to and understandings of capital cases are also discussed particularly in relation to conceptualisations of justice Miscarriages of justice were significant to capital punishment s increasingly fraught nature in the mid twentieth century and the book analyses the unsettling power of two such high profile miscarriages of justice The final chapters consider the continuing relevance of capital punishment in Britain after abolition including its symbolism and how people negotiate memories of the death penalty Capital Punishment in Twentieth Century Britain is groundbreaking in its attention to the death penalty and the effect it had on everyday life and it is the only text on this era to place public and popular discourses about and reactions to capital punishment at the centre of the analysis Interdisciplinary in focus and methodology it will appeal to historians criminologists sociologists and socio legal scholars
