**MEANING OF HUMAN RIGHTS**

Human beings are rational beings. They by virtue of their being human possess certain basic, inherent and inalienable rights which are commonly known as **human rights**. Human Rights are defined as all those rights which are essential for the protection and maintenance of dignity of individuals and create conditions in which every human being can develop his personality to the fullest extent. Human rights become operative with the birth of an individual. These are moral claims which are inalienable and inherent in all individuals by virtue of their humanity alone, irrespective of caste, colour, creed, and place of birth, sex, cultural difference or any other consideration. Because of their immense significance to human beings, human rights are also sometimes referred to as **fundamental rights**, **basic rights**, **inherent rights**, **natural rights** and **birth rights**. They are not created by any legislature through legislation and are not subject to amendment.

**DEFINITION OF HUMAN RIGHTS**

*"Rights derived from the inherent dignity of the human person."*
