

Name: _____

Public Policy Research Paper

Purpose: To research a current issue in America and determine what policy approach is best

Research Step #1: Pre-Research

What are you interested in? What would you like to learn more about? What intrigues or baffles you about America today? Pre-research is about investigating possible topics and seeing where your interests lie. Do some internet searching, read the news, or talk to people – remember, you are going to spend a LOT of time reading about your topic, so choose wisely.

Research Step #2: Formulate a Research Question

Ok, so you have a general idea of what you want to write about. The next step is to focus your research by creating a research question. For this assignment, your task is to focus on a **policy issue** related to your topic. For example, pretend you are interested in learning more about military drone strikes. A research question could be: Should the U.S. military continue its use of drone strikes to combat terrorists?

First Research Deadline: Do pre-research and write two or three research questions. You must have them approved by me **IN PERSON** by Monday November 4. (20 points)

Research Step #3: Research

Use a variety of credible sources to answer your research question and to understand how this issue is important to America today. Because you are researching topics that are current, it is important that you have up to date information. Use news sources and periodicals, but pay close attention to bias as to not confuse opinion for facts. Do NOT use Wikipedia or other lame sites like ask.com or howstuffworks.com – college professors will laugh you straight out of the university. Instead, come join the world of academia. I am going to ask our lovely librarians to put together some school resources that could be of use to you, so stay tuned!

To effectively research your topic, think about everything you need to order in order to adequately answer your research question. For example, in order to answer my question about the use of drone strikes, I would want to know:

- What is the U.S. Military's current drone policy?
- To what extent has the use of drones allowed the U.S. to achieve its military goals in the War on Terror?
- What alternatives are there to drone strikes?
- What are the unintended consequences of using military drones?
- How does the international community perceive America's reliance on drones?

I strongly recommend that you write smaller, more focused research questions like the ones above before you "dive in." Research can be overwhelming, so the more directed you are the better.

Research Step #4: Write a Thesis Statement

After doing substantial research, you should be able to answer your research question. Do it! In the form of a thesis statement. Example: Although drone strikes often result in unintended civilian deaths, the United States should continue its use of military drones because it is the most effective way to target high profile terrorists who pose a threat to national security.

Second Research Deadline: Do research to answer your research questions and write a thesis statement. Your thesis statement **IN ADDITION** to an annotated bibliography (MLA) is due Wednesday November 13. (20 points)
