Sales Practice Guide Proposal:

The Equation of Sales - A practical Guide to Selling Technology Tim Gibbons, 2021-05-25 A practical guide to selling technology The Equation of Sales is the distillation of more than 20 years of sales experience into practical tools for people selling technology $\text{Trust} \times \text{Needs} \times \text{Value}$ Successful Selling Trust needs and value are the three things that a sales person must establish with any buyer whether they are selling shoes or aeroplanes People buy from people that they trust people buy something that they need and they buy something that they perceive as valuable If the sales person cannot establish all three generally in that order then they will struggle to sell This book will help you to understand how to establish that trust how to identify those needs and how to demonstrate value to your customer As a result you will make more sales and make more commission The book is mainly aimed at people starting their careers in technology sales It provides the basic tools to decide which customers to try to sell to how to find out what they might need and how to persuade them that your solution is the most effective one For people who have been working in sales for a number of years the book provides great tips and hints and refreshes your knowledge about these things It is not the only sales book you will ever need but it should be the first sales book that you need It provides the foundation for further training and development To help with that it includes a workbook featuring an example product and sales person plus worksheets for you to complete so that you can immediately apply what you have read to your own product Proposal Guide for Business Development Professionals Larry

Newman, 2001 **Research Proposals: A Practical Guide** Denscombe, Martyn, 2012-09-01 This indispensable guide to writing research proposals takes the reader on a carefully planned journey which is clearly sign posted from the outset to the destination of the final proposal Denscombe demystifies the academic jargon inherent in proposal writing instilling confidence in all those writing proposals from undergraduate to doctoral level Dr Kate Adams Reader in Education Bishop Grosseteste University College Lincoln UK This much needed handbook provides a guide for any researcher to turn a research idea into a successful research proposal Denscombe offers both a clear framework for organising the research thought process and plentiful hints for crafting a persuasive case for why a research proposal deserves financial support for getting it done Dr Alberto Asquer Lecturer of Business Strategy and Policy Faculty of Economics University of Cagliari Italy This is a clear and unambiguous guide covering all the essentials needed to build strong research proposals It will prove to be invaluable not only to those new to writing research proposals but as a fast reference point for those already familiar with the requirements Jennifer Grant PhD researcher University of Sunderland UK This how to guide is a candle in the dark for many who want to start writing research proposals It is brimming with straightforward strategies which anyone can use to overcome the key fears associated with keeping on track and selling your research to convince funders and even your professors Hosea Handoyo Boehringer Ingelheim Fonds Research Fellow Germany Whether you are an undergraduate student doing your final year project a masters student writing your dissertation or a PhD student applying for acceptance

onto a doctoral programme this practical book will help you to produce a successful and persuasive research proposal Written by an experienced and best selling author this handbook uniquely draws a parallel between a research proposal and a sales pitch The book provides guidance on what to include and what to omit from your proposal and demonstrates how to sell your research idea Denscombe ably guides you through each stage of the process Choosing a research topic Reviewing the literature Formulating the research question Explaining the research methods Estimating the costs and planning the time involved Obtaining research ethics approval With top tips throughout this book provides an insight to the logic behind research proposals and the way that good proposals address 7 basic questions that readers will ask when they evaluate any proposal
