Strife and Progress Paul T. Hill, Christine Campbell, Betheny Gross, 2012-11-14 Deficient urban schooling remains one of America's most pressing and stubborn public policy problems. This important new book details and evaluates a radical and promising new approach to K-12 education reform. *Strife and Progress* explains for a broad audience the portfolio strategy for providing urban education: its rationale, implementation, and results. Under the portfolio strategy, cities use anything that works, indifferent to whether schools are run by the public, district, or private entities. It combines traditional modes of schooling with newer methods, including chartering and experimentation, with schools making innovative use of people and technology. Urban districts try to make themselves magnets for new talent, recruiting educators and career switchers looking to make a difference for poor children. The portfolio strategy creates interesting new bedfellows: people who think that government should oversee public education align with those advocating choice, competition, and entrepreneurship. It cuts across political lines and engages city governments and civic assets—e.g., philanthropies, businesses, universities—much more deeply than earlier reform initiatives. New York and New Orleans were portfolio pioneers, but the idea has spread rapidly to cities as far flung as Los Angeles, Denver, and Chicago. Results have been mixed overall but generally positive in places that implemented the strategy most aggressively. Reform leaders such as New York's Joel Klein have been overly optimistic, however, assuming that the strategy's merits would be so obvious that careful assessment would be unnecessary. Serious policy evaluation is still needed. *A Big Apple for Educators: New York City's Experiment with Schoolwide Performance Bonuses* Julie A. Marsh, Matthew G. Springer, Daniel F. McCaffrey, Kun Yuan, Scott Epstein, 2011-07-15 For three school years from 2007 to 2010, about 200 high-needs New York City public schools participated in the Schoolwide Performance Bonus Program, whose broad objective was to improve student performance through school-based financial incentives. An independent analysis of test scores, surveys, and interviews found that the program did not improve student achievement, perhaps because it did not motivate change in educator behavior. *New York City's School-Wide Bonus Pay Program* Matthew G. Springer, 2011 *Report* New York (State) Commission of Highways, 1914 **Strategic Inquiry** Nell Scharff Panero, Joan E. Talbert, 2013-09-01 Strategic Inquiry is an innovative model for promoting teacher collaboration around identifying specific learning gaps that keep struggling students from succeeding. Gaps may include anything from the proper use of commas and conjunctions to concepts such as slope in math. The authors argue that addressing these critical learning gaps can lead to big changes in student success, in teachers' sense of efficacy, and in school culture. The strategic inquiry model has been implemented in schools and districts around the country, including New York City, where it was rigorously evaluated with impressive results. As Common Core standards raise the bar for student learning ever higher, this proven approach promises to build teachers' capacity for closing the gap between where struggling students are and where they need to be. **Report of the State Commission of Highways** New York (State).
