Fans, Blockbusterisation, and the Transformation of Cinematic Desire Carolyn Michelle, Charles H. Davis, Ann L. Hardy, Craig Hight, 2017-11-24 This book explores the evolution of audience receptions of Peter Jackson's Hobbit trilogy 2012-14 as an exemplar of the contemporary blockbuster event film franchise. Drawing on findings from a unique cross-cultural and longitudinal study, the authors argue that processes and imperatives associated with Hollywood blockbusterisation shaped the trilogy's conditions of production, format, content, and visual aesthetic in ways that left many viewers progressively disenchanted. The chapters address public and private prefigurations of the Hobbit trilogy, modes of reception, new cinematic technologies, and the Hobbit hyperreality paradox: gender representations, adaptation, and the transformation of cinematic desire, and the role of social and cultural location in shaping audience engagement and response. This book will appeal to audience researchers, Q-methodologists, scholars, and students in film and media studies, Tolkien scholars, and Hobbit fans and critics alike.
