System Center Configuration Manager Reporting Unleashed Garth Jones, Dan Toll, Kerrie Meyler, 2016-04-21 Microsoft System Center Configuration Manager's SQL Server database contains valuable information about your users' computers, hardware, operating systems, applications, compliance status, and much more. Microsoft has provided excellent tools for extracting this information in meaningful ways, including SQL Server Reporting Services (SSRS) and SQL Server Data Tools (SSDT). Business Intelligence (BI) System Center Configuration Manager Reporting Unleashed shows you how to make the most of these tools. World-renowned System Center reporting guru Garth Jones and his expert coauthors guide you through all facets of custom reporting with System Center. You'll walk through installing and configuring SSRS using SQL views to find the data you need, writing SQL queries, creating basic and advanced reports, and using role-based administration to securely deliver those reports to the correct individuals. Jones brings together reliable, comprehensive, and up-to-date System Center reporting techniques you'll find in no other book or website. Using this guide, you can consistently retrieve the right information to solve immediate problems and quickly respond to management concerns. Detailed information on how to install and configure SQL SSRS for optimal System Center reporting and easier troubleshooting. Understand the data stored in the ConfigMgr site database. Efficiently retrieve ConfigMgr data by writing SQL queries in SQL Server Management Studio. Learn best practices for developing and designing System Center reports. Create report templates, customize content with report parameters, and embed charts. Customize logos, color palettes, and other report elements for your own organization. Construct advanced drillthroughs to provide deeper understanding. Strengthen report security by integrating ConfigMgr role-based administration into SQL queries. Leverage reporting to measure KPIs and gain a better understanding of your environment. Tailor your reports to the needs of end users or management. Foreword by Wally Mead, Principal Program Manager, Citreson. The only book entirely dedicated to Configuration Manager reporting, this guide complements Meyler's *System Center 2012 Configuration Manager Unleashed*, offering far more in-depth coverage of reporting than the single chapter in that book. Most of the content in this new guide will be equally valuable in both System Center 2016 and 2012 environments.

Financial Valuation Workbook James R. Hitchner, 2024-12-05 A complete toolkit for financial valuers to help keep their engagements on track and on time. In the newly revised fifth edition of *Financial Valuation Workbook: Step by Step Exercises and Tests to Help You Master Financial Valuation*, veteran valuation expert James R. Hitchner delivers a comprehensive collection of checklists, reports, information request templates, and other tools designed to assist valuation practitioners in the organization of their engagements. In the book, you'll find intuitively organized materials that cut the learning curve for newly minted valuation professionals in half. The tools contained within follow the standard valuation engagement format and track the intricacies of the typical valuation assignment. Over 300 exercises, organized by major subject, are included to assist with the learning process. You'll also find updated sections on S corps discounts for lack of

marketability and cost of capital resources and applications Report writing aids discussions of individual vs corporate tax rates and guides for engaging in depositions and trials as an expert witness Materials designed to assist with the difference between capitalized cash flow and discounted cash flow methods Perfect for business valuation analysts and expert witnesses Certified Public Accountants and appraisers the Financial Valuation Workbook will also be an indispensable resource for attorneys working with financial valuation experts as they aim to keep their engagements on track on time and on budget
