Report From A Dead Planet:

You Can't Make Money From a Dead Planet Mark Shayler, 2023-10-03 Doing good is no longer a luxury or a nice to have it's a necessity While businesses both big and small have undoubtedly caused the majority of our environmental and sustainability problems only they can solve these issues at scale You Can't Make Money From a Dead Planet looks at the challenges we face and shows how business needs to change in order to be the driver of the solution Bestselling author and sustainability strategist Mark Shayler explains why there is no contradiction between being profitable and doing the right thing for the planet and doing the right thing for your customers Providing the insights the enthusiasm and the tools to align your business with sustainability the book blends explanations of the challenges that we face with stories from those businesses that have excelled in sustainability Exploring current sustainability approaches and trends including net zero circular economy ESG B Corps zero waste and environmental management systems You Can't Make Money From a Dead Planet explains, debunks and helps you navigate the sustainable agenda while growing your business **Trixie & Me** Peter Cawdron, 2012-03-09 Trixie Me is the second of series of stand alone novellas exploring alternatives to the Rare Earth Hypothesis in the search for extraterrestrial intelligence Trixie and Berry are trapped on an alien space ship Berry can't move but he seems to understand what's going on Trixie is confused she has no recollection of how they ended up in the dark depths of an alien war craft She struggles to comprehend even the simplest of principles struggling to speak but she is free of her chains so she is Berry's only hope They must escape their captors and warn humanity about this sinister threat coming from the galactic core **Galactic Exploration** Peter Cawdron, 1900 Galactic Exploration is a compilation of four closely related stories following the exploration of the Milky Way by the star ships Serengeti Savannah and the Rift Valley These three generational space ships are manned by clones and form part of the ongoing search for intelligent extra terrestrial life With the Serengeti heading out above the plane of the Milky Way the Savannah exploring the outer reaches of the galaxy and the Rift Valley investigating possible alien signals within the galactic core this story examines the Rare Earth Hypothesis from a number of different angles This volume contains the novellas Serengeti Trixie Me Savannah War **The New Conch Republic Volume I** Steve Godsey, 2014-04 The New Conch Republic by Steve Godsey is a tale of turmoil which began with World War II and continued for centuries as the world evolved and expanded into deep space Now it is not only humans but aliens alike who engage in this struggle to survive This story takes place in deep space but is being chronicled by a group secretly known as Time Walkers ones who travel through time to any place or time in the galaxy appearing human in form They are rumored to have first appeared on Earth to stop an alien assassination plot to kill Adolf Hitler before his rise to power While the timeline moves all the way to A D 3304 in deep space so much action takes over the centuries as the story recounts many historic events that played out here on Earth However now a corrupt and greedy Shadow Government has taken over everything Will the various human and alien empires come together to overthrow this evil or will the battle rage

on until only the strongest survive About the Author Steve Godsey is a native of Ohio and currently resides in Cincinnati His interests include travel and sightseeing as well as reading historical books and watching DVDs The author's purpose in writing this novel was to encourage present and future generations to take an interest in our planet and its problems before it is too late It is also his hope that space exploration will continue so that we might know if we are in this galaxy alone or are there others out there

The Dead Peoples' Planet Ruhi Darakshani, 2013-04-02 This book tells of unguessed worlds somewhere in the universe and offers extraordinary scenes of heaven hell and prebirth A US spaceship manned by a captain and twelve crew members of various backgrounds nationalities and gender sets off on a mission to Mars Unfortunately long before it gets there a sudden violent unidentified energy propels it off course to an uncharted location in the vacuum of the cosmos This unexpected diversion is accompanied by pain giddiness and other physical sufferings for the travelers testing their courage perseverance and endurance more than a little At last with severe jolting the ship stops literally in the middle of nowhere and it stays there Cut off from Earth and locked up within its space vehicle the crew is surrounded on every side by saving colors of all shades and shapes Then quite lost in time and space the captives witness three levels of being One soon dubbed the Dead Peoples Planet by the voyagers shows hell itself a place for punishing sinners and tyrants Then comes heaven reserved for good people who are sustained by spiritual joy Lastly the astronauts see a world of prebirth which is another scenario altogether In just over ninety pages the author shows familiarity with diverse worlds some of which have been heard of but not experienced and some of which turn out unpredictably eventful and extremely exciting At the same time the spotlight falls on good bad reward punishment justice Gods mercy and fate The last crew eventually gets back to Earth after twenty years But a suspicious court of interrogation inquiries why it thinks it has been away for only one year The Deadly Peoples Planet is an unusual book that would make an intriguing film

Values in Sustainable Development Jack Appleton,2013-08-22 To enhance sustainable development research and practice the values of the researchers project managers and participants must first be made explicit Values in Sustainable Development introduces and compares worldviews and values from multiple countries and perspectives providing a survey of empirical methods available to study environmental values as affected by sustainable development The first part is methodological looking at what values are why they are important and how to include values in sustainable development The second part looks at how values differ across social contexts religions and viewpoints demonstrating how various individuals may value nature from a variety of cultural social and religious points of view The third and final part presents case studies ordered by scale from the individual and community levels through to the national regional and international levels These examples show how values can motivate be incorporated into and be an integral part of the success of a project This thought provoking book gives researchers students and practitioners in sustainable development a wealth of approaches to include values in their research

Towards Mainstreaming Integrated Reporting - Theoretical Landscape and Practical Insights Arvi Kass,2012 Master s Thesis from the year 2012 in the subject Business economics Accounting and Taxes grade 1 7 Berlin School of Economics and Law course MA Accounting Controlling language English abstract It appears that the process towards mandatory Integrated Reporting is inevitable The businesses need to be prepared to take the first steps towards applying these new reporting principles to remain successful over long term At the same time many practitioners raise many justified questions as there is no established Integrated Reporting framework guidelines or thorough business practice yet available This Master Thesis examines the developments of Integrated Reporting theory and provides practical insights based on a survey conducted among South African listed entities into how businesses perceive the new reporting concept The focus of this thesis was to investigate whether the

current theoretical frameworks provide sufficient guidance on Integrated Reporting adoption whether companies perceive value creation from applying Integrated Reporting principles what were the main challenges and opportunities faced and whether the Integrated Reporting should remain voluntary or become a mandatory requirement In addition a critical analysis of the Integrated Reporting Discussion Paper published in September 2011 is provided **Dead Star** Simon

Kewin,2020-02-16 A hidden trail among the stars The galaxy is in flames under the harsh theocratic rule of Concordance the culture that once thrived among the stars reduced to scattered fragments Selene Ada last survivor of an obliterated planet joins forces with the mysterious renegade Ondo Lagan Together they attempt to unravel the mystery of Concordance s rapid rise to galactic domination They follow a trail of shattered starship hulks and ancient alien ruins with the ships of the enemy always one step behind But it s only when they find the mythical planet of Coronade that they uncover the true scale of the destruction Concordance is capable of unleashing For fans of Peter Hamilton or Iain M Banks who enjoy intelligent space opera and sci fi with big ideas This is a wonderful ambitious exciting and incredibly well written SF story worthy of me labelling Simon Kewin as the next Arthur C Clarke Speculative Faction Book Reviews This was a knockout entry a true epic space opera that brings multiple sci fi elements from religious Zealotry Oppressive Overlords Ancient civilizations Lost mysteries all together into one cohesive plot The story telling is just sublime from the get go as the epic events of the plot mesh superbly with the personal tragedy and exiliation of the characters The plot is woven so deftly that I could never guess where the next few chapters would lead to The climax was a bit of cliffhanger but one that forces you to dive into the next book asap and if not for the other books in contest I would have gotten lost in this series SPSFC semi finalist placed 10th overall **Chronicles of the Republic** Michael McGinty,2012-10-22 Chronicles of the Republic takes place at the tail end of a spiral galaxy a cove in the galaxy three light years long and an uneven six months wide The republic consists of ten solar systems in rough proximity within the cove Over time inter planetary political social and economic cooperation matured into a full fledged political system a republic with a president a bicameral legislature a judicial system and a Fleet to protect its interests The systems are bordered on one side by a belt of dust rocks and small nomadic planets known as the asteroid belt The belt is lawless home to pirates who prey on shipping The other border is thin wisp of dust which gives way to an open clear void running for more than a light year to another strand of the galaxy s spiral The outermost tip of the Republic is known as the Outer Region This is the closest point of the Republic to the Sardos who at that point are roughly a year away at light speed across the void The Outer Region is home for the Fifth Fleet several Fleet land bases and a population of prospectors and itinerants The story is about how a successful and powerful Republic finds itself confronted by a military crisis It begins just prior to the crises and follows the political business and military leaders from peace to war It is a story of people social processes politics military action the common mans view of events and the lurching imperfect interactions of people that leads a society to its future **Dead in Space** Daniel K.
