School Autonomy Reform and Social Justice in Australian Public Education Amanda Keddie,Katrina MacDonald,Brad Gobby,Jill Blackmore,Jane Wilkinson,Scott Eacott,Richard Niesche,2025-09-30 This book explores the social justice implications of school autonomy reform within the context of public education in Australia It is situated within and framed by global concerns about how public schools are navigating their autonomy within increasingly marketised education systems Drawing on extensive interviews with stakeholders and five in depth case study schools the book calls attention to the ways in which the intentions of school autonomy reform to offer schools more freedom to make their own decisions and manage their own responsibilities have become increasingly contained by the market imperatives of economic efficiency competition and public accountability driving state and national education systems We build on and enrich existing research in this area that highlights how market imperatives continue to exacerbate inequality within and between schools and their systems An essential read for researchers policy makers principals and teachers worldwide the book provides insight into how education systems can better support public schools to mobilise their autonomy in socially just ways *Meeting The Challenges of Primary Schooling* Lloyd Logan,2005-08-03 Teachers in primary schools deal with a wide range of issues every day This book helps teachers to understand those issues and how they fit in with recent government policies and initiatives Each chapter looks at relevant statements of policy or initiative how these statements fit into the context of specific schools the challenges they present for those involved in schools how schools can respond to these challenges learning across contexts Each chapter has been written by one practitioner and one academic and between them the chapters cover the whole range of Australian primary schools School Restructuring Clive Dimmock,Tom O'Donoghue,2014-01-09 This is an examination of restructuring in the context of the curriculum and teaching and learning International case studies are provided from the USA Hong Kong Australia and the UK **Educational Systems of the Chief Colonies of the British Empire ...** Great Britain. Board of Education,1901 *A Socially Critical View Of The Self-Managing School* John Smyth,2005-09-21 The shift from the model of central government educational control to school based management has been widely adopted and acclaimed and has created the general impression of increased democracy and participation The international contributors to this book tackle this important policy issue and look behind the scenes of the moves towards school self management They investigate the phenomenon of the self managing school Why It Is Happening Now What Is The Truth Behind This Notion And The problems which lie behind devolution and self management The self managing school it is

claimed is not about grassroots democracy or parent participation but absolutely the reverse and this contradiction is best understood in terms of the ideology of the New Right Enlightened and informed perspectives of the reality behind school self management suggest that the devolution of power is only superficial Hierarchies continue to exist as unequally funded schools which perpetuate class gender and ethnic divisions The mechanism involved promotes the Survivial Of The Fittest Through Notions Of Choice For Those Involved in school management and education generally this book should provide a useful insight into the struggle surrounding the control of schooling   *Innovative School Principals and Restructuring* C.A.J. Dimmock,T.A. O'Donoghue,2005-06-27 Restructuring is an international phenomenon and great stress is placed on the role of the innovative principal in the process This book offers insights into the ways in which six principals go about leading the change process in their schools and looks for ways of understanding why and how principals behave and think in the way they do Its edited topical life history approach identifies key events experiences and significant others in the lives of the case study managers and shows how these have shaped the way they implement changes to curriculum teaching and learning in their schools   Special reports on educational subjects Education Ministry of,1901   **Special Reports on Educational Subjects** Great Britain. Board of Education,1901   **IJER Vol 2-N1** International Journal of Educational Reform,1993-01-01 The mission of the International Journal of Educational Reform IJER is to keep readers up to date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities As the only peer reviewed scholarly publication that combines authors voices without regard for the political affiliations perspectives or research methodologies IJER provides readers with a balanced view of all sides of the political and educational mainstream To this end IJER includes but is not limited to inquiry based and opinion pieces on developments in such areas as policy administration curriculum instruction law and research IJER should thus be of interest to professional educators with decision making roles and policymakers at all levels turn since it provides a broad based conversation between and among policymakers practitioners and academicians about reform goals objectives and methods for success throughout the world Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes Finally it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U S and the world   **Challenges for Public Education** Jane Wilkinson,Richard Niesche,Scott Eacott,2018-10-29 An accelerating pattern in Australia and internationally is the dismantling of public education systems as part of a long standing trend towards the modernisation marketisation and privatisation of educational provision Responsibility for direct delivery of education services has been shifted to contracting and monitoring under the clarion call of school and leadership autonomy and parental choice Part of this pattern is an increasing blurring of boundaries between the state and private sector a move from government to

new forms of strategic governance and from hierarchy to heterarchy Challenges for Public Education examines the educational leadership policy and social justice implications of these trends in Australia and internationally It maps this movement through early shifts to school based management in Australia New Zealand and Sweden and recent moves such as the academies programme in England and charter schools in the United States It draws on recent studies of a distinct new phase in Australian school reform the creation of independent public schools IPS in Western Australia and Queensland and global policy moves in public education in order to provide a truly international dialogue and debate on these matters This book moves beyond critique It innovatively brings together Australian and international perspectives and a rich range of diverse theoretical lenses practice philosophy feminism gender relational and postmodernism As such it provides a crucial forum for illuminating alternate ways to conceptualise educational leadership policy and social justice as resources for hope
