Tyler, 2011-02-02 Get the most out of the free Google Analytics service and get more customers Google Analytics allows you to discover vital information about how end users interact with their Web sites by collecting vital data and providing tools to analyze it with the intention of improving the end user experience and ultimately converting users into customers This indispensable guide delves into the latest updates to the newest version of Google Analytics 3.0 and explains the concepts behind this amazing free tool You'll discover what information to track how to choose the right goals and filters techniques for reading Google Analytics reports and graphs and most importantly how to compile this data and use it to improve your Web site and attract more potential customers Takes an in depth look at Google Analytics 3.0 and walks you through the possibilities it offers Explains how to read Google Analytics reports and graphs so that you can compile this data and use it to improve your Web site and attract more users Shares techniques for converting end users into customers Features tips and suggestions for getting the information you need from Google Analytics reports and then converting that information into actionable tasks you can use With Google Analytics Third Edition you'll be well on your way to retrieving the information you need to convert visitors to your site into customers Note CD ROM DVD and other supplementary materials are not included as part of eBook file **From Corporate to Social Media** Marisol

Sandoval, 2014-03-05 The corporate and the social are crucial themes of our times In the first decade of the twenty first century both individual lives and society were shaped by capitalist crisis and the rise of social media But what marks the distinctively social character of social media And how does it relate to the wider social and economic context of contemporary capitalism The concept of Corporate Social Responsibility CSR is based on the idea that a socially responsible capitalism is possible this suggests that capitalist media corporations can not only enable social interaction and cooperation but also be socially responsible This book provides a critical and provocative perspective on Corporate Social Responsibility CSR in media and communication industries It examines both the academic discourse on CSR and actual corporate practices in the media sector offering a double critique that reveals contradictions between corporate interests and social responsibilities Marisol Sandoval's political economic analysis of Apple AT T Google HP Microsoft News Corp The Walt Disney Company and Vivendi shows that media and communication in the twenty first century are confronted with fundamental social

responsibility challenges From software patents and intellectual property rights to privacy on the Internet from working conditions in electronics manufacturing to hidden flows of eWaste this book encourages the reader to explore the multifaceted social ir responsibilities that shape commercial media landscapes today It makes a compelling argument for thinking beyond the corporate in order to envision and bring about truly social media It will interest students and scholars of media studies cultural industry studies sociology information society studies organization studies political economy business and management
